CAMERA

NG07

The quintessential outdoor camera. With a viewing angle of 82 °. Keep an eye on the outside area around your home at all times and get notified when something's up.

The artificial intelligence built into the camera knows to separate important from unimportant movements and only informs you when it is relevant. The durable design is sturdy, weather proof and water-repellent.

- New: Intelligent camera with special focal length for the monitoring of out door areas.
- New: Next generation speaker and microphone technology.
- New: IP65 dustproof and protected against water jets from any angle
