

The Strength to Stop Bullets. The Flexibility to Meet Your Custom Specs.

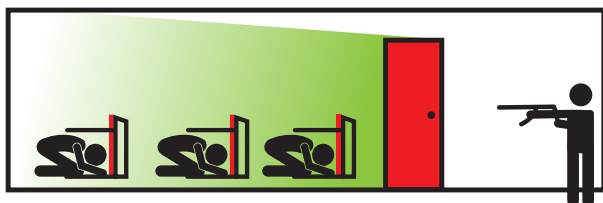

MADE WITH **DURITIUM** TECHNOLOGIES

Ultra Light • Ultra Thin • Warranted Performance • Hand Gun & Rifle Protection

BallisticBoard has flipped the world of custom ballistic materials on its head. Utilizing our patented Duritium® technologies, BallisticBoard® offers a variety of custom ballistic solutions ranging from 0.125" thick rigid panels that effectively stop all handguns to material that's under an inch thick that stops multiple rounds of armor piercing ammo, and weighs less than 6 lbs. per square foot.
