MOUSHMI JAIN

PROFESSIONAL SUMMARY

A enthusiastic and self-motivated software developer with 2+ years of industrial experience working with outstanding interpersonal, communication skills and management skills. Seeking a challenging role as a product manager to leverage skills and knowledge to drive product success.

EXPERIENCE

Systems Engineer, 02/2020 - 03/2022
Infosys - Pune

- As a JDE CNC my responsibility was deploying changes in testing and production, maintaining activities, upgrading ERP and setting up security for end users
- Collaborated in a team-based, Agile environment to accomplish objectives by deadlines
- Produced high-standard solutions to meet stability, reliability and performance within the given deadline.

Co-Founder, 05/2020 - 09/2020
Meriyaadi.com - Pune

- In the ideation phase, conducted market survey to get understanding of the problems faced by merchants and end consumers and prioritized requirements
- Introduced WhatsApp as a communication tool between buyer and seller, found top priority business segments and iterated process flow multiple times to reduce friction
- Launched MVP1 within 2 months, developed wireframes, perform sanity testing and manage the projects progress.
- Post Launch, led Growth and reached out to 5000+ merchants using social media marketing, SEO tools and cold calling which resulted in ~2% conversion rate.

Teaching Assistant, 06/2018 - 02/2019
Rajesh Jain Academy - Pune

- Assisted students in clearing concepts and doubts regarding C++ basics, Data Structures and Algorithms and OOP. Helped students master learning concepts through one-on-one and small group tutoring.

EDUCATION

2022
Upraised Product Management - India
