FOR THE CITY

ACADEMY 4 2021-22 IMPACT

This past year, we partnered with Academy 4 to provide mentors for every 4th grader at Josephine Houston Elementary and Pickle Elementary, two local economically disadvantaged elementary schools. These mentors built relationships with the 4th graders and helped them learn about leadership traits.

STUDENTS MENTORED

"In a letter written to me by my mentee, Joseph, he said that I was the “best person he ever knew and always helped with [his] problems.” Honestly, all I ever did was listen. The power of mentorship and knowing someone is cheering you on goes a long way. I think for me, that’s where the beauty of Academy 4 lies."

— Kaitlyn M, Downtown Congregation Volunteer

"Our partnership with our family at Academy 4 has enhanced our ability to build fully realized students at Josephine Houston Elementary School. Our daily mission is to ensure that every student receives the same opportunity to succeed in school and life. This school year, our students exceeded their academic and social expectations. We look forward to your presence and action as we keep striving for excellence for every student. And it's a blessing to recognize that we will continue serving with pure, willful, sacrificial, and unconditional LOVE. A love that intentionally desires another's highest good. AGAPE Love!"

— Principal Alberto Alonso, Josephine Houston Elementary

Join us in mentoring 4th graders at Houston Elementary, Pickle Elementary or Robertson Elementary during the 2022-2023 school year by signing up here:
