

Who We Are – *Driving Innovation*

G2G is a bipartisan team of non-dilutive funding experts and government affairs professionals who have spent decades working for and with government on the federal, state and local levels – successfully representing bioscience, healthcare, and high-tech innovators, entrepreneurs, research institutions, companies and non-profits in securing \$322 million in non-dilutive government funding.

What We Do – *Delivering Results*

G2G catapults businesses and non-profits from Government to Growth by providing comprehensive government affairs, public relations, and economic development services. We specialize in securing non-dilutive government funding, leading advocacy campaigns, building relationships and positioning to influence policy.

Who We Help – *Change-Makers*

Entrepreneurs • Start-ups • For profit companies • Non-profit organizations

How We Do It – *Government to Growth*

- Create and implement creative G2G strategies to access funding through legislation and grants
- Build relationships with key legislators, government agencies and stakeholders
- Organize advocacy events, Statehouse Days and briefings for public officials
- Develop strategies to influence policy, regulations, programs and funding
- Produce the monthly GBG Report listing bioscience research grants - see www.G2Gconsulting.com/GBG
