

MDS 9000R (Cash-in, Cash-Out & Bulk Cheque Deposit)

A multifunction ATM that offers bulk cheque handling and cash recycling capabilities

Automatic stamping

Front crossing on each cheque using rotary stamp.

Automatic cheque sorting bin

Enables cheque sorting into 4 pockets, eliminating additional cheque handling.

Large cash storage capacity

5 cassettes, Total capacity of up to 17,000 banknotes.

Banknote serial number reader

Automatic recognition of serial numbers to aggregate useful analytic data.

Supports image-based cheque clearing

Equipped with automatic front stamping and rear endorsement printers, and on-board scanner.

Cash recycling module

Optimise your cash management resources.

The best of breeds in 1 kiosk

The Rototype MDS 9000R is the latest addition to our range of multifunction self-service solutions which offers three of the most frequently used 24-hours services within a single footprint.

It boasts our flagship module for bulk cheque deposit that accepts up to 35 cheques in a single feed operation, and is capable of real-time endorsements and image capture to support image-based cheque processing standards in your country.

The MDS 9000R also incorporates a worldwide-accepted cash recycling module that enables cash-in and cash-out functionalities with recycling capabilities, so that your bank can now fully optimise the use of physical space and cash management resources.

The MDS 9000R is what every bank needs to fulfil your customers' basic banking needs in 24-hour lobbies, commuter stations and street corners.
