The "Game Changer" - 3-user Women's Urinal

Let's confront a little-discussed problem...and offer an eye-catching solution!

Studies of the toilet facilities provided at many outdoor events suggest that 90% of queues for the toilets are made up of women who only need to pee and yet - in the absence of any other solution - women have had to use the "standard" toilets put in place for all. Which often involves waiting in a queue.

Whereas the male portable urinal has done a superb job over the years to reduce waiting times by "removing" lots of men from the queues, there's surely more that can be done to bring gender equality to using loos at events...it's time for Lapee!

**Lapee is a 3-user urinal for women! Safe, private and quick.
Designed for women to pee: designed for hovering or squatting.**

To get to the basics, we all recognise that the way the male body is built and the way male clothing is designed makes it quicker and easier for men to pee. Women need to undress more and need extra privacy when doing so. The smaller women's bladder also means that women tend to need to use the toilet more frequently.

But how would it be if there was a solution that gives women "toilet equality" allied with privacy, safety, speed and hygiene?

Using the Lapee at your event will mean that women will no longer have to join the queue to use "standard toilets." Lapee boasts 3 separate and shielded "stalls" with high walls for privacy. Using the Lapee urinal takes 30 seconds: using a "standard" toilet takes 3 minutes. Now that's what we call a time saving.

Advantages / USPs

- 3 user women's urinal promotes gender equality
- Pink and easy to spot
- Reduces long toilet queues at events
- A clean, safe and efficient option for ladies to pee

Lapee - privacy, simplicity, efficiency, equality

Gender inclusion

Research suggests:

“90% of the toilet queues at events are made up of women who only need to pee.”

Lapee allows women to pee quickly, safely and hygienically - that's wee equality.

Each Lapee can free up 6 portable toilets for those who need them.

Privacy & speed

Lapee can free up 6 x standard toilets

Hover - use feet guides

3 x separate "hover only" stalls - WEE ONLY!

Lapee boasts 3 separate, elevated easy-entry, shielded "stalls" for privacy.

Users can see out but no-one can see in.

Ever had someone burst in on you unexpectedly because of a faulty door lock? Well, that won't happen with Lapee!

Did you know? Using a standard toilet takes up to 3 minutes: using a Lapee urinal takes just 30 seconds. That's "queue busting."
