

The Veyo Advantage

Veyo was created to revolutionize the healthcare logistics industry through a technology-first approach to non-emergency medical transportation (NEMT). We are a full-service NEMT broker partnering with state governments, health plans, and healthcare providers to coordinate safe, efficient, and reliable transportation for their members.

Built for Healthcare

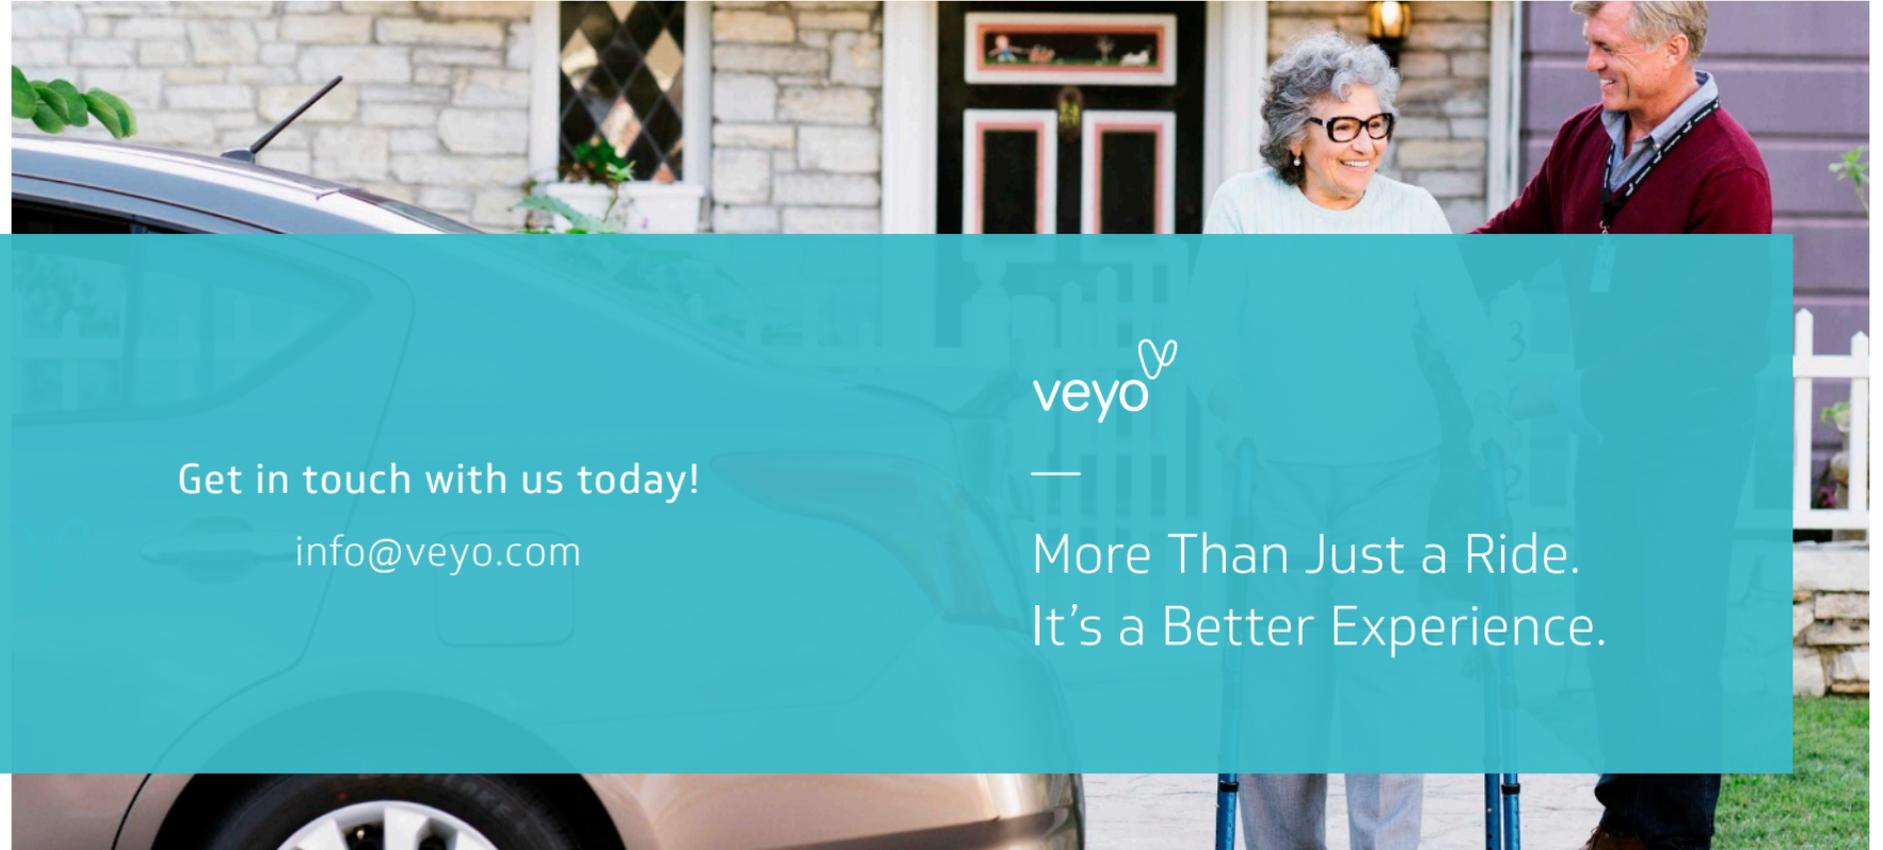

Veyo is designed for the healthcare industry and uses data and technology to cut costs and improve health outcomes.

Designed for NEMT

Our platform is built specifically for the management of a state or health plan's Medicaid / Medicare NEMT benefits.

All Modes, All Regions

Our network covers all members, even those living in the most rural regions. Covered modes include sedan, wheelchair, stretcher, public transit, mileage reimbursement, etc.

Why Veyo?

Veyo provides a proven, end-to-end solution to the logistics challenge of NEMT. We offer a complete array of transportation management services for our customers, including:

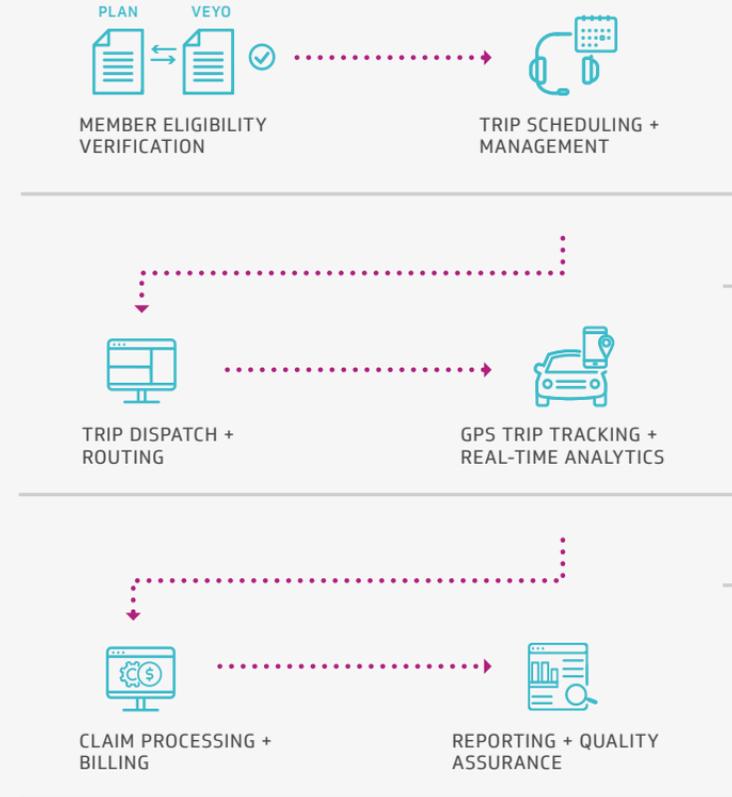

- Member Eligibility Verification
- Call Center Services
- Network Development + Management
- End-to-End Trip Management
- Real-Time Trip Monitoring + Trip Reporting
- Quality Assurance + Customer Support
- Fraud, Waste, and Abuse Reduction

Our top priority is ensuring that each member gets to their appointment on time, every time.

The Veyo Model

In the last five years, technology has radically transformed ground transportation for the better. Veyo is bringing that technology - GPS tracking, real-time monitoring, supply and demand controls, and mobile apps - to the healthcare industry.

The Veyo Model is revolutionizing traditional NEMT methods and bridging the gap between broker and provider, allowing for unparalleled transparency and a superior member experience. Our integrated model allows us to focus on each member's experience from start to finish.

1. Member Management

The Veyo platform supports customized eligibility criteria and will steer a member to the lowest cost and most appropriate mode.

2. Network Management

The Veyo Virtual Fleet™ integrates rideshare drivers with commercial transportation providers, increasing flexibility and decreasing costs.

3. Transparency

Detailed trip reporting and a vertically integrated platform provide unparalleled visibility through every step of the process.
