

Care guidance from MCG illuminates the optimal path for proactively and efficiently moving a person toward health

MCG helps healthcare organizations implement informed care strategies that proactively and efficiently move people toward health. MCG's transparent assessment of the latest research and scholarly articles, along with our own data analysis, gives patients, providers, and payers the vetted information they need to feel empowered in every care decision, in every moment.

INFORMED CARE

COLLABORATIVE CARE

EFFECTIVE CARE

Evidence and analytics to proactively manage care, predict resource needs, and benchmark recovery progress

Documentation is grounded in evidence, with transparency around rationale, for integration in the medical record

Adhere to a standard of excellence and meet the needs of patients, providers, and payers

Give case managers a platform to work with authority

Apply care resources that will help with recovery

Avoid unnecessary, wasteful, or harmful care

Informed Care Strategies for Effective, High-Value Care

MCG's collaborative solution aligns care with a standard of excellence to meet the needs of patients, providers, and payers. Exhaustive assessment of the evidence and actuarial rigor provide the basis for confident decision making, so that people receive the right care.

Collaborative solution

to adhere to a standard of excellence and meet the needs of patients, providers, and payers.

Transparency around rationale

with the decision's evidentiary basis clearly documented, for integration in the medical record.
