# THE HEALTHHELP DIFFERENCE

By working closely with health plans and providers, HealthHelp is now the industry leader in educational and collaborative care management.

- INDEPENDENT specialty benefits management company, assuring our focus on quality and patient safety remains at the forefront of our philosophy
- Provides trend management, with active trend-bender cycles to help clients achieve incremental savings year over year

HealthHelp's fully integrative programs in Cardiology and Oncology are leading the way in supporting a true continuum of care. The Virtual Tumor Board program is the first of its kind in the specialty benefits management space, activating early engagement and collaboration with academically affiliated oncology specialists.

- Streamlined treatment plan authorizations
- Fully integrative strategies drive end-to-end cost management on a per-case basis, where the focus is on unit reduction and on delivering the best care and outcomes at the lowest per-case cost
