# innovaccer

innovation accelerator

Accelerate your transformation with the #1 healthcare data platform.

The Innovaccer® Health Cloud

Powered by the industry's Best in KLAS data platform, the Innovaccer Health Cloud empowers healthcare organizations to integrate and activate data from any source to create a 360 view of the patient that enables whole-person care.

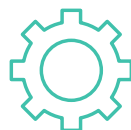

Innovaccer Health Cloud Components

Innovation Accelerators that comprise a collection of modular, pre-packaged building blocks that can be rapidly assembled to address key clinical, operational, and financial use cases.

Application Suite that uses highly customizable applications to make data actionable and helps create intuitive workflows for end-users.

Data Activation Platform that ingests, aggregates, and normalizes data across systems to deliver actionable insights that improve clinical, financial, and operational outcomes.

Innovation Toolkit that makes building new healthcare applications fast and easy through its developer suite.

"Having the relationship that helps deliver solutions together is where the benefit lies with Innovaccer."

– Sriram Bharadwaj, *Vice President of Digital Innovation and Application, Franciscan Health*

"With Innovaccer, we are able to identify patients with multiple comorbidities and assist with everyday necessities, reducing their risk of exposure."

– Tamra Ruymann MBA, *Chief of Digital Health, Physicians of Southwest Washington*

"Working with Innovaccer, that energy is infectious. It charges us also. And in a way it allows us to deploy our energy and commitment more effectively."

– Sukhveer Singh, *Global Head of Healthcare Insights, Roche Information Solutions at Roche*
