

## **Non-participating Insurance Plans**

SRMC advises that you confirm provider and facility plan benefit coverage details prior to seeking non-emergency services with SRMC.

Some insurance plans do not utilize a contracted network of providers and other plans may choose not to contract with SRMC. The following plans are considered out of network. Since SRMC does not have a contract with the plans, SRMC is unable to bill the insurance on the patient's behalf, and the patient will be responsible for payment of billed charges, at the time of service, for non-emergent services.
