

**-FOR IMMEDIATE RELEASE-
ZO's Advanced Skin Care Products Now
Available At SRMC Plastic Surgery**

(SALEM, OHIO) – June 14, 2021 – Those looking to rejuvenate and maintain healthy skin now have access to internationally acclaimed ZO® Skin Health solutions, that are based on the latest advancements in skin therapy. Board-Certified Plastic and Reconstructive Surgeon Linda Camp, M.D., FACS, offers the innovative ZO® Skin Health products locally at SRMC Plastic Surgery to help patients experience continuously healthy skin regardless of their age or unique skin condition.

The ZO® Skin Health products are created by world-renowned dermatologist Dr. Zein Obagi.

“While most over-the-counter products focus primarily on improving the appearance of the skin, ZO® Skin Health is designed to achieve long-lasting changes in skin cells as they reach deeper into the skin,” explained Dr. Camp. “These prescription-strength products are available through authorized physicians as part of an overall skincare plan. They not only help your skin look better in the short term, but also address damage in the skin’s layers, stimulate healthy skin cell regeneration, correct existing flaws and slow skin aging. The comprehensive line of medical grade ZO® Skin Health products helps our patients experience continuous skin health with clinically proven results.”

Those wishing to optimize their skin health are invited to schedule a consultation with Dr. Camp to discuss their own personalized skincare plan and select the daily skin care routine that best meets their needs.

Types of ZO® Skin Health products offered at SRMC Plastic Surgery include:

- **Cleansers:** ZO® cleansers gently remove irritants and surface debris for a clearer complexion. Normacleanse™, a rich and creamy cleanser, nourishes, moisturizes and calms normal to dry skin while removing oils and impurities.

The innovative ZO® Skin Health products are available locally at SRMC Plastic Surgery to help patients experience continuously healthy skin regardless of their age or unique skin condition.

- **Exfoliants:** These products assist in the removal of dead cells for ultimate skin surface renewal. Glycogent™ Exfoliation Accelerator combines the power of glycolic and lactic acid to help accelerate cellular turnover at the surface level, while reducing skin discoloration.
- **Treatments:** ZO® skin care treatment products maximize skin barrier functionality with dramatic results. Products include a daily lotion that protects and repairs all skin types, as well as a lightweight gel that strengthens skin, supports skin repair, and protects against future signs of aging.

To learn more about ZO® Skin Health products or to schedule a skin consultation with Dr. Camp, call SRMC Plastic Surgery at 330-332-7383 or visit www.srmcplasticsurgery.com. An affiliated practice of Salem Regional Medical Center, SRMC Plastic Surgery is located at 2094 East State Street, Suite G, in Salem.

About Dr. Camp

Board-Certified Plastic and Reconstructive Surgeon Dr. Linda Camp is affiliated with Salem Regional Medical Center's Medical Staff and SRMC Plastic Surgery. A practicing plastic surgeon for over 20 years, she performs all aspects of plastic and reconstructive surgery, including both surgical and non-surgical procedures.

Dr. Camp has a special interest in caring for women with breast cancer. In addition to her SRMC Plastic Surgery practice, Dr. Camp provides consultative services to breast cancer patients at the University Hospitals Seidman Cancer Center at SRMC.
