## Keith Meredith, VP Clinical Operations at Salem Regional Receives Tele-ICU Award

(SALEM, OHIO) – July 21, 2021—

Keith Meredith, Pharm D, VP of Clinical Operations at Salem Regional Medical Center (SRMC), was recently awarded Hicuity Health’s “We See You Care” Award for 2021. The award was given in recognition of Keith’s outstanding leadership efforts during the Covid-19 pandemic to implement tele-ICU services at SRMC through Hicuity Health, the nation’s largest provider of tele-ICU services. Hicuity Health performs 24/7 remote, tele-monitoring by highly trained intensivist physicians and critical care specialists, providing an extra layer of care that enhances patient care and safety.

The “We See You Care” award is given to ten recipients each year, who are selected from 100 hospitals across the nation for their exceptional collaboration and leadership skills as demonstrated between bedside care providers and Hicuity Health’s remote critical care teams.

“Our ICU patients receive the highest level of medical care available through the collaboration between their physician, SRMC’s critical care team and the remote tele-monitoring oversight of Hicuity Health,” explained Dr. Anita Hackstedde, SRMC’s President/CEO. “We are very proud of Keith’s leadership in launching these enhanced, life-saving tele-ICU services for our SRMC patients.”
