

Dr. Linda Camp, Plastic and Reconstructive Surgeon Offers Complimentary Skin Cancer Screenings in May

Board Certified Plastic and Reconstructive Surgeon Linda Camp, M.D., FACS, will offer complimentary skin cancer screenings at SRMC Plastic Surgery in May.

(SALEM, OH)—April 25, 2022---Skin cancer is the most common form of cancer in the United States, but most skin cancers are both preventable and treatable when detected early.

During Skin Cancer Awareness Month in May, Board Certified Plastic and Reconstructive Surgeon Linda Camp, M.D., FACS, will offer complimentary skin cancer screenings at SRMC Plastic Surgery. Exams will be provided in her office by appointment only from 1:00-3:30 p.m. on the following Thursdays:

- May 5
- May 12
- May 19
- May 26

Appointments can be scheduled by calling SRMC Plastic Surgery at 330-332-7383.

The practice is located at 2094 East State Street, Suite G, in Salem, in the SRMC Professional Services building across the street from Salem Regional Medical Center's main campus.

"Last year, we were able to perform skin cancer screenings for 126 area residents, with almost two-thirds having positive findings or suspicious skin lesions," Dr. Camp said. "As a result, the screenings provided the opportunity to identify potential skin cancers in their earliest and most treatable stages."

About Dr. Camp

Linda Camp, M.D., FACS, is board certified by both the American Board of Surgery and the American Board of Plastic Surgery. She performs all aspects of plastic and reconstructive surgery, and offers both surgical and non-surgical cosmetic procedures, to help improve her patients' appearance and enhance their quality of life.

Dr. Camp has a special interest in caring for women with breast cancer. In addition to her SRMC Plastic Surgery practice, Dr. Camp provides leadership for SRMC's

multidisciplinary breast cancer committee and consultative services to breast cancer patients at the University Hospitals Seidman Cancer Center (UHSCC) at SRMC. Her goal is to ensure that area women have local access to comprehensive and personalized breast cancer care.
