

CJD 6000 (Chequebook Printer)

Chequebook request and printing - Reinvented

Real-time chequebook production

Chequebooks can be printed at every branch or from every hub.

Reduces per unit cost of each chequebook

Savings from storage cost for pre-printed cheque stock and logistics.

Online capabilities

Facilitates online chequebook ordering via electronic or mobile banking platforms.

ISO-compliant MICR encoding

Capable of CMC7, E13B magnetic ink encoding.

On-demand personalisation

Capable of printing personalised logo and customer details for each chequebook.

Innovation that now enables you to print chequebooks in real-time, at the request of your customers

The CJD 6000 is a Chequebook Printer designed purposefully for producing on-demand chequebooks at the bank branch or central processing centre. While the production method of yesteryears proved efficient by means of outsourcing; innovation & technology today have made it possible for financial institutions to re-engineer this process with the aim of achieving maximum operational efficiency.

With online ordering capabilities, the CJD 6000 does not geographically limit chequebook requests to its place of issue. Requests can be made in Branch A while its place of issue in Branch B. Additionally, your online banking customers can also place a request at their convenience, and later collect it from your branch or receive it in their mailbox!

Salient features

- Two stations with the capacity to store up to 1800 cheques and 1400 chequebook covers/re-order forms.
- Stapling and Binding unit: Able to collate 50 pages in 120 seconds.
- Thermal transfer MICR film encoding.
