

# Bulk Water Alliance

Client ACTEW, ActewAGL, GHD, Abigroup and John Holland

Date 2008 - 2009  
Value \$410 million

## Description

The Bulk Water Alliance delivered an enlarged Cotter Dam, the Murrumbidgee to Googong water transfer scheme, upgrade works to the existing Googong Dam Spillway and new pumping facilities at the Murrumbidgee River. Comacon consultants were responsible for external and internal communications, working with the Alliance heads to create and support an alliancing culture.

## Approach

During this multiple stage project our consultants:

- developed and implemented an 'outstanding performance plan' which included revised branding and an education program
- minimised disruption to impacted services, the community, transport infrastructure, local businesses and other relevant stakeholders
- conducted a heritage plan including widespread indigenous liaison
- managed community and stakeholder engagement
- developed and implemented an extensive and innovative events program.
