CPDP offers the cutting edge in legal, regulatory, academic and technological development in privacy and data protection. CPDP gathers academics, lawyers, practitioners, policy-makers, computer scientists and civil society from all over the world to exchange ideas and discuss the latest trends and emerging issues. Each year, CPDP offers a compelling and diverse line-up of speakers and panels. This unique multidisciplinary formula has served to make CPDP one of the leading data protection and privacy conferences in Europe and around the world.

CPDP2020 adopts “Data Protection and Artificial Intelligence” as its overarching theme to pave the way for a timely and thorough discussion over a broad range of ethical, legal and policy issues related to new technologies and data analytics. CPDP2020 will offer more than 80 panels addressing current debates in the area of information technology, privacy and data protection. Already lined-up for the programme are panels on AI and healthcare, autonomous vehicles, AI-based sentiment analysis, deepfakes, digital evidence, AI for crime prevention, GDPR compliance for SMEs and many more. CPDP is also an extraordinary networking opportunity to mix and mingle with the privacy and data protection community. CPDP2020 preliminary programme and the initial line-up of speakers will be announced soon. Stay tuned and expect to see a fantastic array of speakers and standout panels.
