

Verse 1

Sing I will sing Your name
'cause in death You made my heart start beating
Live, I will live for You
'cause there's an empty tomb that held my healing

Pre-Chorus

Though I was not perfect
Your grace did not play favorites

Chorus

There is life within in the blood that was shed for me
There is freedom here for You now hold the victory
Oh my soul this I know at the cross it is finished

Verse 2

Fear I will fear no more
For the battles Yours You reign unrivaled
Trust I will trust Your way
Though I walk through pain it is not final

Pre-Chorus

Though I was not perfect
Your grace did not play favorites

Chorus

There is life within in the blood that was shed for me
There is freedom here for You now hold the victory
Oh my soul this I know at the cross it is finished

Bridge x4

I've got peace like a river
I've got peace like a river
I've got peace like a river
Running through my soul

Chorus

There is life within in the blood that was shed for me
There is freedom here for You now hold the victory
Oh my soul this I know at the cross it is finished

Bridge x2

I've got peace like a river

I've got peace like a river

I've got peace like a river

Running through my soul
