## A world first P.E.P.®: Pulse Extraction Process

### The benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- One-Touch Cappuccino function for latte macchiato, flat white or cappuccino at the touch of a button
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLARIS Smart ensures perfect water quality
- Simple operating concept, with controls on front of machine, with modern TFT display and a water tank filled from the front

Innovative technologies in the new JURA E line are revolutionising the enjoyment of coffee. The One-Touch Cappuccino function creates trend specialties such as latte macchiato, flat white and cappuccino at the touch of a button. The brewing process for ristretto and espresso has been 100% perfected. The Pulse Extraction Process (P.E.P.®) is the only process of its kind in the world. It optimises the extraction time and guarantees the very best aroma even for short specialty coffees. CLARIS Smart provides pure water for a pure taste. Filter usage has never been easier because the Intelligent Water System (I.W.S.®) automatically detects filter presence. Buttons on the front of the machine and a modern TFT display make operation incredibly simple. And the integrated maintenance programmes and milk system cleaning function ensure absolute hygiene.
