DISCLAIMERS:

METALS - All raw metals; brass, copper, mild steel in their respective finishes are unsealed. Metals in a raw, natural and unsealed state will oxidise and change in colour and tone. This is a completely natural process, therefore all our metal finishes will need to be maintained with an appropriate wax/crème, the application of which will build up a natural sealant over time. **Ferrograin**: a lightly textured matte paint finish.

MARBLE, STONE, GRANITE - Each slab of these natural materials vary in colour, tone, movement and veining; we find these variances an inherent and valuable part of the natural beauty of stone, no two pieces are the same making each OKHA design a unique, characterful piece and each product will be different from the next. We choose materials individually, taking full advantage of their natural imperfections and individual qualities.
