Be My Guest Dining Table

This table is part of the Be My Guest range, which is a modern interpretation of the tile-topped table, which was popular in the 1960s. The classic tile-topped table has been added a new elegance with its rounded corners and a single row of tiles that make the table blend effortlessly into any contemporary interior design. Style and functionality go hand in hand as you can place your teapot or coffee plunger on the row of tiles at the centre of the table.
