

**HIGH
PERFORMANCE**

Blue Plate Special®
gen2

Raybestos® Powertrain's Gen2 Blue Plate Special®: the ultimate racing clutch for automatic transmissions. With optimum shifting at a level above standard racing clutches, Gen2 provides a positive engagement under high-power conditions where all of the energy absorption is condensed into a short length of time. The power-absorbing Gen2 clutch performs with low wear, excellent fatigue strength, high durability and quick shifts with little shock – for even faster times.

RECOMMENDED USE:

Serious racing applications; optimum benefit is in dynamic clutch positions.

**SUPERIOR-STRENGTH
BONDED RESINS**

**LESS SHOCK
DURING SHIFTS**

**QUICK
ENGAGEMENTS**

**WITHSTANDS HIGHER
TORQUE & HORSEPOWER**

**INCREASED
DURABILITY**
