BOOKS

The Great Books

Wednesday, May 21st at 7:30pm

Our discussion for May is *Mario and the Magician* by Thomas Mann, who was a German novelist, short story writer, social critic, philanthropist, essayist and 1929 Nobel laureate. His highly symbolic and ironic epic novels and novellas are noted for their insight into the psychology of the artist and the intellectual. His analysis and critique of the European and German soul used modernized German and Biblical stories, as well as the ideas of Goethe, Nietzsche and Schopenhauer.

Mario and the Magician is a novella written in 1929, and is one of Mann's most political stories. Mann openly criticizes Fascism, a choice which later became one of the grounds for his exile to Switzerland following Hitler's rise to power. The story was especially timely, considering the tensions in Europe when it was written. Stalin has just seized power in Russia, Mussolini was urging Italians to recapture the glory of the Roman empire, and Hitler was quickly gaining steam in Germany. The end of the story represents Mann's changing political views. He moved from a supporter of the Kaiser to a desire to rid the continent of fascist influences.

Mann lived in Munich from 1891 to 1933, and then to Switzerland in 1936. Three of his six children also became German writers. He emigrated to the United States in 1939, where he taught at Princeton University. Mann was awarded the Nobel Prize in Literature in 1929, principally in recognition of his popular achievement with the epic *Buddenbrooks* (1901) and his numerous short stories. In his summation (on receiving the Nobel Prize), "The value and significance of my work for posterity may safely be left to the future; for me they are nothing but the personal traces of a life led conscientiously, that is conscientiously."

THE EVER CONTROVERSIAL MINT JULEP

The time has come! Spring is upon us, and with it, the long awaited seasonal landmark we have come to lust for after our lengthy harsh winters. Perhaps nothing connotes the true changing of the season better than the annual tradition of the running of the Kentucky Derby in Churchill Downs. And for all the beverage enthusiasts among us, the 140th running of the Derby this May stirred a deep yearning for the robust and fresh flavors of one of the most debated and heralded cocktails of spring, the MINT JULEP. This traditional Derby cocktail has been served at Churchill Downs since 1938 and each year over one hundred thousand are poured on the race track grounds. The Mint Julep has questionable origins as a sweet and alcoholic medicinal vehicle, first served sometime in the early 1800's. Throughout the ensuing centuries the proper recipe has been hotly contested by those from differing southern states. However, gone are the arguments over the measures of sugar vs water, and how long one must steep their mint leaves prior to mixing. We may now consider a classic Julep to contain a select few, high quality ingredients which are generally agreed upon. This month, we shall review this mixologist's recommended recipe...

The Classic Mint Julep

Frosty pewter or silver Derby cup (collins glass)
Finely crushed ice
3oz Woodford Reserve
0.75oz Stirrings Simple Syrup
2 Sprigs Fresh Spearmint

The preparation for this cocktail should begin hours in advance of the intended imbibing timeframe in order to achieve the perfect Mint Julep flavor and effervescence. Begin early in the day by placing your pewter Derby cup into the freezer, making sure it is completely dry beforehand in order to achieve the maximum frost on the cup's exterior when removed. select a few sprigs of fresh spearmint leaves, macerate them slightly, and rest them submerged under a few ounces of your favorite simple syrup. Throughout the day, the fresh mint flavor will become infused into the simple syrup, making for a doubly refreshing final product.

Later in the afternoon, begin to prep your cocktail by placing ice cubes in a towel and crushing them, until fine, with a mallet. Making sure to pour off any water that has melted during the crushing process, add your crushed ice to your pewter cup. Take care to grasp your cup by the rim or the base when you remove it from the freezer, as not to melt any of the precious frost that has formed on the exterior which shall help your cocktail remain icy cold while you enjoy it. Proceed to fill your cup with 3 oz of Woodford Reserve, top with a splash of your previously prepared mint-infused simple syrup and garnish with a sizeable sprig of fresh mint. Please do not make the egregious error of sipping this beverage through a straw, as it is intended that your nose be near the surface of your drink to soak up the potent scents of the bourbon and herb within! Then you have it, after the inevitable slow and satisfied exhale.....Spring in a cup.

Investment Club News by Gene Mason—(The IClub) March Highlights

No question the month of March brought with it a certain fervor (better described as a fever). The March meeting of the ICLUB was a most enthusiastic meeting—maybe not at a feverish pitch but nevertheless it had a very enthusiastic level of participation. Probably two themes could characterize the discussions. Theme #1 could be labeled "refreshing the basics". And Theme #2 could be labeled "join in the discussion".

Theme #1 circled around a presentation by one of the members which was a reminder to some members and maybe instructive to others emphasizing the use of certain basic financial tools when evaluating stocks which may be candidates for purchase or sale (It is important strategically to have a plan when to buy and when to sell and for that matter when to hold).

Some of the key tools discussed and most useful in making informed decisions included: price earnings ratio (PE); price earnings growth (PEG); earnings before interest, taxes, and amortization (EBITA); and of course history and forecasts of revenues and earnings.

It is anticipated that future meetings will include discussions of additional tools to help sharpen the focus on the use of helpful information to make better investment decisions.

Theme #2 discussions centered around the monthly evaluation of individual investments in the stock portfolio. It was suggested that individual members be responsible for updating current news of a particular company. This may include quarterly and annual earnings reports, or it may include recent company news releases. Members present at the meeting volunteered to follow the happenings of one or two companies and report monthly of any changes.

If you would like to engage in some of these discussions, the IClub meets the second Wednesday of every month in the second floor library. Guests are always welcome. Meetings begin at 5:30PM and adjourn at 7:00PM. If you would like information please call Gene Mason at 651.698.4782 or e-mail eu-gene.mason@comcast.net.

F. Scott Fitzgerald Roundtable

Saturday, June 21st from 9:30 to 11am

In June we'll discuss *Exile's Return* (1983) by Malcolm Crowley. Crowley (1898-1898) was an American novelist, poet, literary critic and journalist. The adventures and attitudes shared by the American writers dubbed "The Lost Generation" are brought to life here by one of the group's most notable members.

U Club members are invited to join this new Literary Society in the Twin Cities. Meetings are held the third Saturday of the month, six months out of the year—in April, May, June, September, October and November.

Investment Club News by Gene Mason—(The IClub) April Highlights

A new milestone for the ICLUB occurred at the April meeting. Member, **Mike Ryan**, constructed and introduced the club's new website. Although it is in its beta version it will provide many new opportunities for club members. It will permit members to submit stock assignment updates of current news and financial metrics. This is especially important during news releases of the recent quarterly results. Electronic communication among the many members will be a big plus. Now it will be incumbent on the membership to make this site a friendly electronic communication tool.

At the April meeting the membership approved two purchases. It was decided that it was time to invest in Tesla Motors (TSLA) priced at \$206 at time of purchase. The other acquisition was the addition of more shares of Starbucks (SBUX) to its current position. Purchase price of SBUX was \$70 plus some change. Many new and exciting events are on the drawing boards at TSLA. Its price/earning ratio (PE) is some place in the clouds. Maybe that would be the wrong direction because it has no earnings to calculate the PE. The PE for SBUX is in the neighborhood of 27x earnings.

The portfolio of stocks continues to reward the members. At mid-April it was showing a very nice 26% cumulative gain. However, one must remember the gain is not annualized, but nevertheless a very respectful appreciation.

The ICLUB welcomes guests at its monthly meetings. All meetings are scheduled for the second Wednesday of every month. They start at 5:30 PM and adjourn at 7:00 PM. If you would like additional information, please contact Gene Mason at eugene.mason@comcast.net.

G.K. Chesterton
(1874-1936)

The G.K. CHESTERTON SOCIETY

The Everlasting Man

By G.K. Chesterton

Tuesday, May 27th at 7pm

In May, we'll be discussing *The Everlasting Man* by G. K. Chesterton. *The Everlasting Man* is a Christian apologetics book. Published in 1925, it is to some extent a deliberate rebuttal of H.G. Wells' *The Outline of History*, disputing Wells' portrayals of human life and civilization as a seamless development from animal life and of Jesus Christ as merely another charismatic figure. Whereas *Orthodoxy* detailed Chesterton's own spiritual journey, in this book, he tries to illustrate the spiritual journey of humanity, or at least of Western civilization.

G.K. Chesterton, prolific English critic, wrote around 80 books, several hundred poems, 200 short stories, 4000 essays and a few plays. He was a literary and social critic, historian, playwright, novelist, Catholic Christian theologian and apologist, debater and mystery writer. In addition to the *Daily News* and *The Illustrated London News*, he had his own paper, *G.K.s Weekly*; and he also wrote articles for the *Encyclopedia Britannica*.

Chesterton was, with George Bernard Shaw, Hilaire Belloc, and H.G. Wells, among the big Edwardian men of letters. Chesterton was a master essayist. The only problem with his essays is that there are too many of them. Over five thousand!
