## SECTION C: ADVANCE CONSENT DECISION

### THIS IS NOT A COMPULSORY SECTION

Advance Consent Decisions are legally binding on your health care provider and can include decisions about organ transplants, palliative care, instructions not to put on life support, or directions about receiving blood transfusions.

Cardio Pulmonary resuscitation (CPR): refers to medical procedures that may be used to restart your heart or breathing if they stop due to severe illness. It usually involves very strong pumping on your chest, electric shocks to your heart, medications injected into your veins and breathing tubes being put into your throat to allow a machine to breath for you.

1. If my heart stops and CPR is an option:

Please try to restart my heart or breathing (attempt CPR)

Except if it results in an unacceptable outcome. Refer to what you wrote in 2b above and describe unacceptable outcomes, for example, I will not be able to live independently or go home.

Unacceptable outcomes include:

Please allow me to die a natural death. Do not start my heart or breathing (NO CPR)
