

Breakthrough **Dynamic Modelling Dashboard**©

What is this tool?

This tool is the logical next step following on The Owls Breakthrough Analysis©.

You need the data from this analysis to be able to improve your innovation process or optimise external influences on the process to achieve the desired impact. The Owls Breakthrough Modelling Dashboard© shows the results of The Owls Breakthrough Analyses© in a dashboard.

What is in it for you?

The dashboard gives you controls on the level of the nine generic factors from The Owls Breakthrough Method© that enable you to steer your process in the right direction or better respond to external factors.

Each generic factor has a specific function that can be used as to control or steer the process. It shows where corrections are needed to achieve desired impact.

Our professionals will be happy to discuss with you how to apply The Breakthrough Modelling Dashboard© in your organisation.

The Owls Cooperative (Coöperatieve) U.A.
