

With just a standard 14 degree, 1/2" dovetail router bit, you can route your own tracks for jigs and fixtures all over your workshop. MATCHFIT Dovetail Hardware fits in the groove below the material surface, allowing you to create a variety of jigs that move freely and tighten down anywhere you can route a groove.

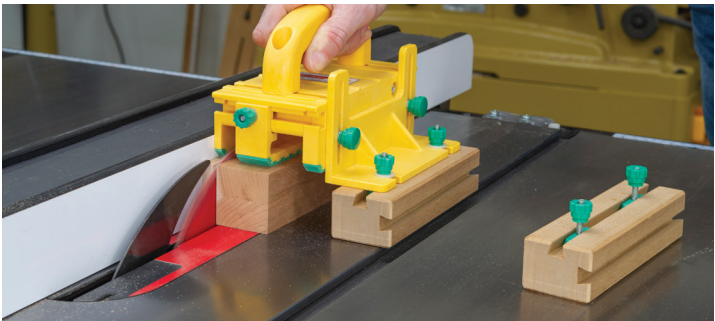

Package Contents - Includes the following Dovetail Hardware:

- A**  **4X** DV-HL4 - 10-32 x 1" Track Screws
- B**  **4X** GR-H50 - 10-32 Round Knobs
- C**  **4X** GR-H14 - Nylon Shoulder Washers

MITER GAUGE FENCE EXTENSION

Build a simple extension fence for your factory miter gauge. It adjusts quickly and supports longer stock for crosscutting with a miter gauge.

GRR-RIPPER RISER BLOCK

The included shoulder washers are compatible with the complete GRR-RIPPER line of 3D Pushblocks. Build a simple riser block and attach to the Balance Support for ripping thick material on the table saw.

ALSO AVAILABLE MATCHFIT DOVETAIL ROUTER BIT.

The MATCHFIT Dovetail Router Bit is specially designed for MATCHFIT Dovetail Hardware and Dovetail Clamps. Its unique profile automatically rounds over the sharp top shoulders, cutting incredibly clean grooves in a single pass. Experience the difference supreme engineering and attention to detail make.
