

QUICK START GUIDE

SETTING UP AND USING YOUR DOVETAIL CLAMP PRO SYSTEM.

1 MATCHFIT DOVETAIL ROUTER BIT

Insert MATCHFIT Dovetail Router bit into router collet. Align the router collet safety line with the top of the collet, then tighten.

2 MATCHFIT SETUP GAUGE

Using the outermost notch on the Setup Gauge, set the router bit to a 3/8" cutting depth.

3 ROUTING GROOVES LIKE A PRO

Route your dovetail grooves.

4 CLAMPING DOWN LIKE A PRO

Use the Dovetail Clamps and Dovetail Hardware to build jigs and fixtures for use all over the workshop.

FREE DOWNLOADABLE JIG PLANS

The MATCHFIT Dovetail Clamp Pro includes everything you need to create your own tracks for jigs and fixtures. Scan the QR code for detailed instructions, tutorial videos, and free project plans. microjig.com/matchfitplans
