DVC Summer Reading 2023

We have worked hard to have the DVC students reading books over the summer that will have a direct impact on their curriculum in the shop, but are also interesting to read. We want our students to WANT to read these books, because they should be interested in the material we are providing them. We will provide each student with a copy of the book they will be reading.

If a student loses their book they will need to reimburse the shop for the cost of the book and will need to find their own copy in order to complete the summer reading.

If you leave the book at school, or lose the book before you can read it you will need to purchase it in order to answer your summer reading question. Which will be given in the first couple of days of school. It is worth 10% of your shop grade for T1.

Incoming Sophomores:

The Non-Designer's Design Book, 2nd Edition **(any current addition will do as well)**

Summer Reading Book – 2023

Apollo 8: The Thrilling Story of the First Mission to the Moon Paperback – May 1, 2018

The untold story of the historic voyage to the moon that closed out one of our darkest years with a nearly unimaginable triumph.

In August 1968, NASA made a bold decision: in just sixteen weeks, the United States would launch humankind's first flight to the moon. Only the year before, three astronauts had burned to death in their spacecraft, and since then the Apollo program had suffered one setback after another. Meanwhile, the Russians were winning the space race, the Cold War was getting hotter by the month, and President Kennedy's promise to put a man on the moon by the end of the decade seemed sure to be broken. But when Frank Borman, Jim Lovell and Bill Anders were summoned to a secret meeting and told of the dangerous mission, they instantly signed on.

Written with all the color and verve of the best narrative non-fiction, *Apollo 8* takes us from Mission Control to the astronaut's homes, from the test labs to the launch pad. The race to prepare an untested rocket for an unprecedented journey paves the way for the hair-raising trip to the moon. Then, on Christmas Eve, a nation that has suffered a horrendous year of assassinations and war is heartened by an inspiring message from the trio of astronauts in lunar orbit. And when the mission is over—after the first view of the far side of the moon, the first earth-rise, and the first re-entry through the earth's atmosphere following a flight to deep space—the impossible dream of walking on the moon suddenly seems within reach.

The full story of Apollo 8 has never been told, and only Jeffrey Kluger—Jim Lovell's co-author on their bestselling book about Apollo 13—can do it justice. Here is the tale of a mission that was both a calculated risk and a wild crapshoot, a stirring account of how three American heroes forever changed our view of the home planet.

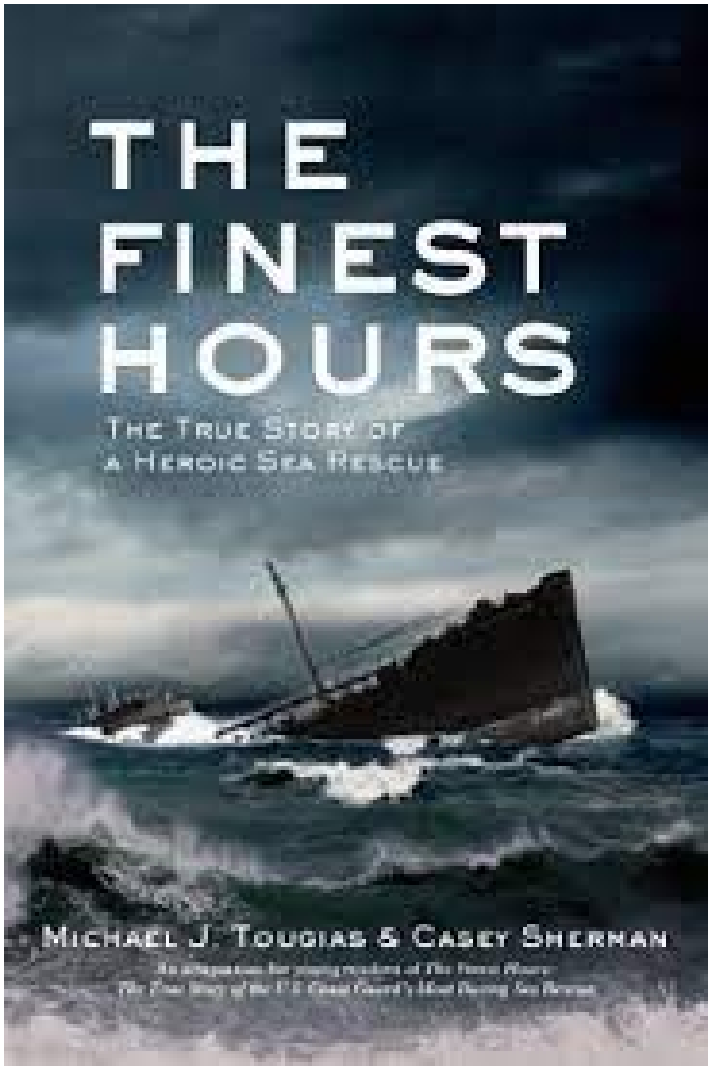

During the first week of school, students will be required to write a 2-paragraph essay based on the reading. The prompt will be given to the students at the beginning of a class period. The essay will be due by the end of the class period. The reading essay will be graded according to the CCT Writing Rubric. Students may use the book and/or notes to aid them in their writing of the essay.

SR. Reading Assignment:

Ghost in the Wires: My Adventures as the World's Most Wanted Hacker

By: Kevin Mitnick

Kevin Mitnick was the most elusive computer break-in artist in history. He accessed computers and networks at the world's biggest companies -- and no matter how fast the authorities were, Mitnick was faster, sprinting through phone switches, computer systems, and cellular networks. As the FBI's net finally began to tighten, Mitnick went on the run, engaging in an increasingly sophisticated game of hide-and-seek that escalated through false identities, a host of cities, and plenty of close shaves, to an ultimate showdown with the Feds, who would stop at nothing to bring him down.

Ghost in the Wires is a thrilling true story of intrigue, suspense, and unbelievable escapes -- and a portrait of a visionary who forced the authorities to rethink the way they pursued him, and forced companies to rethink the way they protect their most sensitive information.

https://www.amazon.com/Ghost-Wires-Adventures-Worlds-Wanted/dp/0316037729

While reading, compare what the protagonist, Mitnick, does throughout the book to what you might expect to learn about the security field next year. Think about how someone with his skill could have gone down the path of being an unethical hacker. Your essay should answer the following questions:

1) Why did Mitnick choose the path he chose? What influences contributed to his decision.
2) Why was it so hard for the FBI to track him down? Use specific examples and quotes from the book to explain.

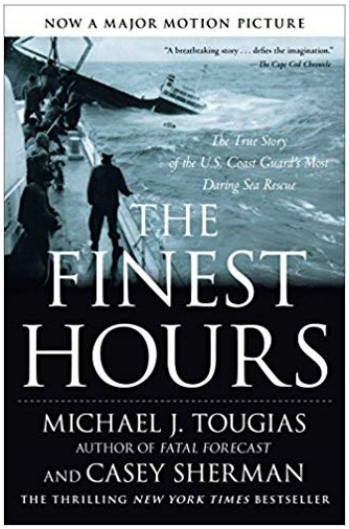

What was the coolest thing about Mitnick's methods to you and explain that method in depth.

Plumbing Summer Reading Book and Assignment for The Finest Hours 2023 (The assignment will be completed in school)

It's the winter of 1952 and a ferocious Nor'easter is pounding New England with howling winds and seventy-foot seas. Two oil tankers get caught in the violent storm off Cape Cod, its fury splitting the massive ships in two. Back on shore are four young Coast Guardsmen who are given a suicide mission. They must save the lives of the seamen left stranded in the killer storm, and they have to do it in a tiny lifeboat. The crew is led by Bernie Webber, who has to rely on prayer and the courage of his three crewmembers to pull off the impossible. As Webber and his crew sail into the teeth of the storm, each man comes to the realization that he may not come back alive. They've lost all navigation and have no idea where the stranded seaman are, and have no idea how to get back home. Whether by sheer luck or divine intervention, the crew stumbles upon the wounded ship in the darkness. More than thirty men appear at the railings of the SS Pendleton, all hoping to be saved. Once again, Webber and his crew face a daunting challenge. How can they rescue all these men with their tiny lifeboat?
Dripping with suspense and high-stakes human drama, The Finest Hours has incredible and astonishing true-to-life heroism and action-packed rescue scenes. This "marvelous and terrifying yarn" (Los Angeles Times) "deserves a place as a classic of survival at sea" (The Boston Globe).

Assignment
Heroes Essay The official motto of the US Coast Guard is Semper Paredes, "Always Prepared." The unofficial motto is "You have to go out, but you do not have to come back." The four "Coasties" that braved the 70-foot waves to try to rescue over 30 sailors stranded by the two shipwrecks risked their lives and are clearly presented as heroes. Your job is to write a five paragraph essay that answers the question: "What does it mean to be a hero?" You must answer the question by using one individual character from the book and describing his or her character traits that are heroic. There are many character traits that you could identify: willingness to face danger, being "cool under fire," personal integrity, selflessness, and many others. You can also show the emotions that the person goes through while being heroic. As you develop your essay, you should limit yourself to no more than three traits (you need at least a full body paragraph per trait). Each body paragraph should contain a direct reference to the events in the book and a quote from the book. The quote should be properly cited using parenthetical reference of MLA form with a page number. (Go to this page: https://owl.english.purdue.edu/owl/resource/747/03/ for help in properly formatting a direct quote). In the final paragraph of the essay, identify someone in your own life whom you admire as a hero and make a brief comparison to the heroic traits that you discussed in your essay. If possible, include a picture of your personal hero as a final nice touch (digitally).
