GROW AS AN ENTREPRENEUR  
GET PRACTICAL EXPERIENCE

---

### WHO?

Always dreamed of your own startup? Do you care to innovate, change and create?

Want to meet creative likeminded people? This is your chance to stand out from the crowd and make a change.

---

### HOW?

Start in October, first you research the market, what opportunities are out there? Where should your company focus on?

Novembers are for brainstorming! Start working on your concept, Design thinking and ideation workshops, just like informal coaching follow up will strengthen your idea and steer you into the right direction.

Develop the strategy for your product or service, start your business plan.

Start the new semester fresh with creating your product or service, making use of all the necessary means provided by AFC and Cronos Leuven!

Pitch at an AFC Event in front of a jury. Boost your confidence and learn how to improve.

Look at financials and the legal aspects finally, are your ready to scale? Join the next million dollar idea.
