ON DEMAND & ETHICAL

LITTA APP ™ LTD

About LITTA

LITTA is the UK's most trusted waste collection company. Created in 2019, LITTA is reinventing the industry by developing innovative technology.
LITTA has 3 core principles:

- **Offering great value**
  We're typically 10-15% cheaper than our leading competitors. We provide an upfront price for all clearances taking away uncertainty, including the cost of labour, transport and disposal.

- **Being responsible**
  We transport all waste to verified recycling centres, which aim to recycle all the waste that is collected. Being environmentally responsible is at the core of our offering, no fly tippers here :)

- **Being reliable and efficient**
  We provide clear communication throughout the process, including Live Driver tacking for all jobs, automated Waste Transfer Notes (to confirm we have taken ownership of the waste, and before and after images for absolute peace of mind. We can accommodate same-day bookings in London and surrounding counties

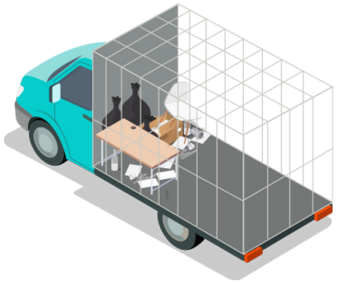
Rubbish Clearance Loads

Household 240 L Wheelie Bin

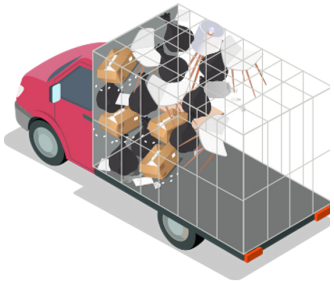
Single Junk Item

Mini Load

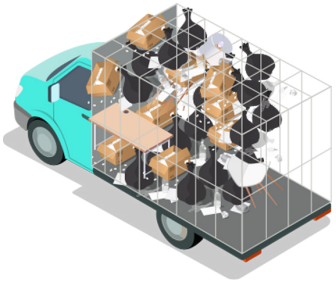
Small Load



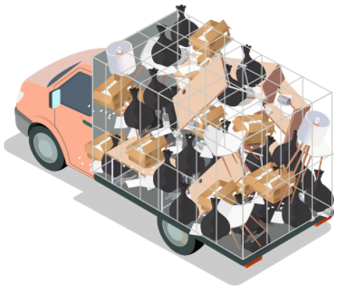
1/4 Load



1/2 Load



3/4 Load



Full Load

Hows does it work?

Head over the www.LITTA.co to make your booking

Step 1

Book online or send across a quote request

You can book as little as a single junk item all the way up to several van loads using our site and following the intuitive booking process. Otherwise, you can send across a quote and we will respond within a few hours with a bespoke quote.

Step 2

Live driver tracking

A driver tracking link will be sent to you when the team is en route. Once the team arrives they will collect the waste (we do all the hard work).

Step 3

Two man team collect your waste

Our two man team will enter the property and remove any waste as per your load size, sweep up and leave the space clean and tidy.

Step 4

Your waste is recycled

We provide a waste transfer note and aim to recycle 100% of the waste that is collected. The waste is taken to a local transfer station and is segregated into the different waste streams for recycling.

Additionally charged items

These items are classed as hazardous and are additional charged items when booking a load.

- Electrical waste / batteries
- Tyres
- Fluorescent tubes / bulbs
- Gas cylinders
- Fuels / oils
- Solvents / paint
- Mattresses
- Fridges / Freezers

Prohibited Items

Please note we do not take any of the following:

- Medical waste
- Asbestos (any type)
