

Golf Advisory Committee Minutes

May 4, 2021

Jim McCormick called the meeting to order at 0835 at the Meeting Room Oak Tree CC

Attending were committee members Dede Potvin, Tom McMullen, Scott McKettrick, Jim McCormick, Sandy Williams, BVSA Board Member Butch Reyburn, BVSA GM Wes Shryock, PGA professional Duane Gore and IGM Golf Superintendent Brandon Haynes.

The March 2, 2021 minutes were tabled approval pending printouts copied on site and distributed, allowing all members to review last meeting.

Reports:

Golf Superintendent: Brandon Haynes/IGM-see attached report.

PGA Golf Professional: Duane Gore-see attached report.

Old Business:

Lake quality was brushed and reviewed, before moving on to work order status, with discussion of tee box leveling of #5 and #10 being top priorities for IGM. Grading by volunteer Butch Reyburn completed some of the leveling, however, #5 turnaround needs additional road base. BVSA Maintenance has capital project for #4 ditch, and a railing for women's #2 tee, along with walkway from the middle parking lot, but are busy with Country Club drive-up road prior to the asphalt repair coming to the Country Club. Efforts will be made after manpower is completed on asphalt preparation.

Major bunker rehab is still a ways off, however, the sand issues of existing versus new requirements will be addressed this quarter. IGM takes delivery of sand in June, and the present stockpile is usable if requirements warrant. Ray Gibson and Brandon are point men on bunkers.

Eight new trees were placed last month, that included four placed at the tee box of #3 to protect against wayward shots coming from tee #2. The fairway of #2 near the dam also had a new tree planted near the cart path. A tree was planted at the Mulligan room entrance and two trees were planted on #3-a pine in the fairway and a deciduous tree back left of the green.

Signage for drivers of autos and carts near the Mulligan Room has been ordered. The stop sign that has faded where carts cross Pinedale from #6 green to #7 tee is on hold. The CSD has the action item, however, with the workload mentioned they have, this is unlikely to happen soon.

230 water lilies were planted in the pond in front of #7 by the Lake Quality guys. The request for railing at #13 yellow tee box must be accomplished by BVSA Maintenance due to legal issues; Cathy Panek fell last week, it was noted.

New Business

Brandon reported aerification went well, and that everything that needed or they wanted to get done, was accomplished. See superintendent's report. Well done.

Quarterly course inspection was held off. Mats for the driving range are on the radar, but appear to be after paving phase 2, and concrete foundations for mats. Readdress next year or 18 months. The dead/diseased putting green has been foundering for a year, probably due to low water in that area. Brandon has replace four sprinkler heads, applied top sand after punching, and has been using some transplants to help generate faster repair.

Meeting was adjourned around 0942.
