NEW BUSINESS: Grizzly Paw Bike Park

A Presentation was made by Peter Fulks, his sons, Noah and Denver and Jeremiah Marks regarding the interest and definite need of a designated Bike Park for our Bear Valley Springs children.

Proposed is a Volunteer Built Family Bike Park to the west of Adams Field. Currently we have 25 families that have shown interest and signed up which includes about 60 children. We have some personal equipment i.e. tractors to help develop this project. The ½ mile Red Perimeter Loop design is 200 feet from the Lower Valley Road. The interior of the path will be developed with various jumps, berms, and bicycle features. This park would provide a wonderful opportunity to give our growing number of children a positive outdoor activity and promote their health and safety. We are not asking for any financial support from the Association.

RAC Proposal: This Grizzly Paw Bike Park has strong merit and is a tremendous idea. This Proposed Bike Park should go through the appropriate process channels to become a reality for BVS families.

Motion by Tom Papac, 2nd Will Handley

Unanimous approval by RAC

(Please see Attachment for Discussion on Bike Park Presentation)
