Arbeitsgruppe Pferd presents:

# EQUINE CARDIOLOGY CASE DAYS

Lüsche, Germany · October 2 to 4, 2020

We encourage you to bring along your own equipment!

The German Academy for Continuous Veterinary Education (ATF) credits the course 21 hours.

Participants will witness experts in the diagnosis and treatment of cardiological pathologies work up routine clinical cases. The instructors *Mary Durando, Lesley Young and Inge Wijnberg* will discuss their approaches, diagnosis and treatment options as they proceed. On the third day ample opportunity is given to improve your own skills while working under the guidance of the instructors!

All presentations are in English | *Speakers' bios available under [www.agpferd.com](http://www.agpferd.com)*

► **Why attend AGPferd courses?** Because there will be instructors of different professional and geographical background with outstanding knowledge and experience on the subject tackled.

► **What is different in AGPferd events?** We work in small groups of mostly very experienced participants. Apart from lecturing our instructors present their knowledge and skills in practical demonstrations. Plenty of time is always reserved for discussions. All this under professional conditions, with good food and in a collegial and relaxed atmosphere.

## PROGRAM

### Friday, October 2, 2020 | Tierklinik Lüsche, Lüsche | **Practical work**

10:00 Clinical examination of cases with *Mary Durando, Lesley Young and Inge Wijnberg*

We will work on horses with cardiological pathologies. The day will be divided into four sessions of 90 minutes each. In the first three sessions one case is presented by each instructor, but the group of participants changes, so the participants get an opportunity to experience each of the instructor's routine clinical exam. The fourth 90 minutes session will be devoted to further examine cases already presented as deemed necessary, show special diagnostic techniques and discuss treatment options.

18:30 End

### Saturday, October 3, 2020 | Tierklinik Lüsche, Lüsche

#### Case discussion and lectures

09:00 Each case worked from the day before will be presented. This will include photos, eventually videos and history. Participants can comment on the diagnostic and treatment options. Diagnosis and treatment of specific conditions (types of medication with dosage and frequency) will be discussed.

Thereafter, the following topics will be lectured:  
– Atrial fibrillation: What we know and what not!  
– Case discussions

18:00 End

### Sunday, October 4, 2020 | Tierklinik Lüsche, Lüsche | **Wet-labs**

08:30 Participants will work with the instructors to improve skills selected. Please indicate the order of your preferences when registering.

- 1) Clinical cardiological exam
- 2) Echocardiography
- 3) ECG
- 4) Other

17:00 End
