Business Tools

This programme gives learners access to 18 business tools that underpin the knowledge, skills and behaviours of the apprenticeship.

These tools help the learner to develop their organisation their own role and provide opportunities to learn new knowledge and skills in context to complete their apprenticeship.

Example Tools within The Advanced Management Programme

- Stakeholder Mapping
- PESTEL
- Functional Responsibilities
- 5:15:45 Job Descriptions
- Team Dynamics
- 360

Assessment

You will be assessed through a variety of methods which will include portfolio completion and assignment writing

Core Curriculum Module 1

Strategy

Learners will develop an understanding of strategy and how this drives change in organisations. Including elements around execution, this module will support managers stepping up to leadership.

Core Curriculum Module 2

People

Learners will develop the essential skills to fulfil the challenging but rewarding role of leading people and high performing teams.

36 Business Tools

Core Curriculum Module 3

Operations

Learners will evaluate the impact of structure and governance on management and leadership to ensure strategic objectives and operational efficiency are achieved across organisations of all sizes.

Core Curriculum Module 4

Finance and Project Management

Learners will understand the principles of setting and managing budgets in line with school and regulatory guidelines and develop a deep understanding of how to manage projects (including risk assessments) in the live context of a change management project.
