

## 13<sup>th</sup> European Conference on Tourette Syndrome & tic disorders

ESSTS Virtual Meeting II

1-2 October 2021

Friday, 01.10.2021

10.00-13.00

### Behavioural Therapy Workshop for **advanced** participants

(Alphabetical order)

[Tara Murphy](#), [Charlotte Sanderson](#), [Zsanett Tárnok](#), [Jolande van de Griendt](#) and [Cara Verdellen](#)

### Workshop programme

In this **advanced** behaviour therapy workshop, we will update you on the soon-to-be-published new European Guidelines. We will explore a range of other topics which the more experienced practitioner may come across, such as adapting tic treatment for individuals with commonly co-occurring comorbidities. In addition, we also focus on functional tics- their presentation and treatment options. Furthermore, several invited speakers will talk about the latest development in behaviour therapy.

Previous experience in the delivery of behavioural therapy for tics is necessary to profit the most from this advanced workshop.
