

<b>Business Name</b>	AxoMax Technologies, Inc. Doing Business As Nerve Repair Technologies
<b>Company Mission Statement</b>	We are providing new and innovative technologies for nerve repair. Our guides bridge nerve gaps like no other!™
<b>Company Philosophy/ Values</b>	We plan to demonstrate the safety and efficacy of our novel nerve guide, LibertyTube™ in a clinical trial, resulting in a new clinical treatment for nerve injuries.
<b>Company Vision/Goals</b>	Our short-term goal is to obtain an Investigational Device Exemption for the first-in-human clinical trial. Our long-term goal includes an exit strategy resulting in the commercialization of LibertyTube™ nerve guides, WestEnd Wraps™, and our Fort Pitt Dip Machine™.
<b>Target Market</b>	The total market size is \$2.7B annually, and includes ~600,000 nerve repair surgeries/year. This includes facial nerve paralysis and injury, carpal tunnel revision, and, our initial target, trauma. We are focusing on nerve gap repair, and that market nears \$700M.
<b>Industry/ Competitors</b>	1. Axogen 3. Stryker 2. Baxter 4. Integra
<b>Legal Structure/ Ownership</b>	AxoMax Technologies, Inc was incorporated in 2019. The founder and CEO is Dr. Kacey Marra.
