

PLUG INTO THE FUTURE

NEW JEEP® RENEGADE

DUAL SOUL.

Introducing the all new Jeep Renegade Plug-in Hybrid. Giving the benefits of driving with zero emission and the all terrain safety of a 4x4 when needed. Combined with legendary off-road capability and Jeep credibility. It has efficiency, higher performance, maximum safety and it is more sustainable. Thanks to the Plug-in Hybrid electric technology, CO₂ emissions are just 49-53 g/km in hybrid mode, and 0 g/km for up to 26 miles in pure electric mode.

ALWAYS IN YOUR ELEMENT.

Jeep Renegade 4xe brings driver refinement and functionality to a new level. From pre-conditioning the cabin temperature via the UConnect App to controlling your engine mode at the touch of a button. Relax whilst the 4x4 system automatically engages on demand and with a responsive 0-62mph in 7.5 seconds, delivered through a smooth 6-speed automatic gearbox. The new Jeep® Renegade interiors have been tailored for function and comfort for any adventure.

A nighttime photograph of a modern building with large glass windows and columns, illuminated from within. The building is reflected in the wet pavement of a city street. In the foreground, there are light trails from vehicles, suggesting motion. Trees and a large rock are also visible in the scene.

REDEFINING LIMITLESS.

RENEGADE PLUG-IN HYBRID 4xe

SAFETY

The innovative 4x4 system in the Renegade 4xe is always available and always ready, ensuring maximum traction and control in all driving conditions in hybrid mode. Also including a host of technological safety features as standard, including Lane Departure Warning, Traffic Sign Recognition and the brand-new Drowsy Driver Detection that helps the driver stay alert and aware of the vehicle's surroundings for even greater security for all those on board.

REFINEMENT

Jeep® Renegade 4xe is the sophisticated evolution of a legendary spirit. On every road, enjoy the comfortable ride with a seamless transition between its combustion engine and electric motor with such smoothness and ease, especially with a new 6-speed automatic transmission. Drivers can experience new comforts when starting off by setting the interior cabin to the desired temperature before even getting in. Keeping the right speed on the motorway just got easier too with Adaptive Cruise Control, helping you focus only on the road ahead.

PERFORMANCE

More performance in every sense of the word. The Renegade 4xe delivers more off-road capability, up to 240 hp and greater torque while emitting less than 50g/km of CO₂ in hybrid mode. Choose between three new driving modes, Hybrid, E-Save and Electric, allowing you to travel up to 26 miles with zero emissions in full electric mode and up to 149 mpg in Hybrid mode. With two powerful, efficient engines, and the possibility to reach a full charge in less than two hours with quick charge modes, you will never be without the power you need to reach your destination.

FUN

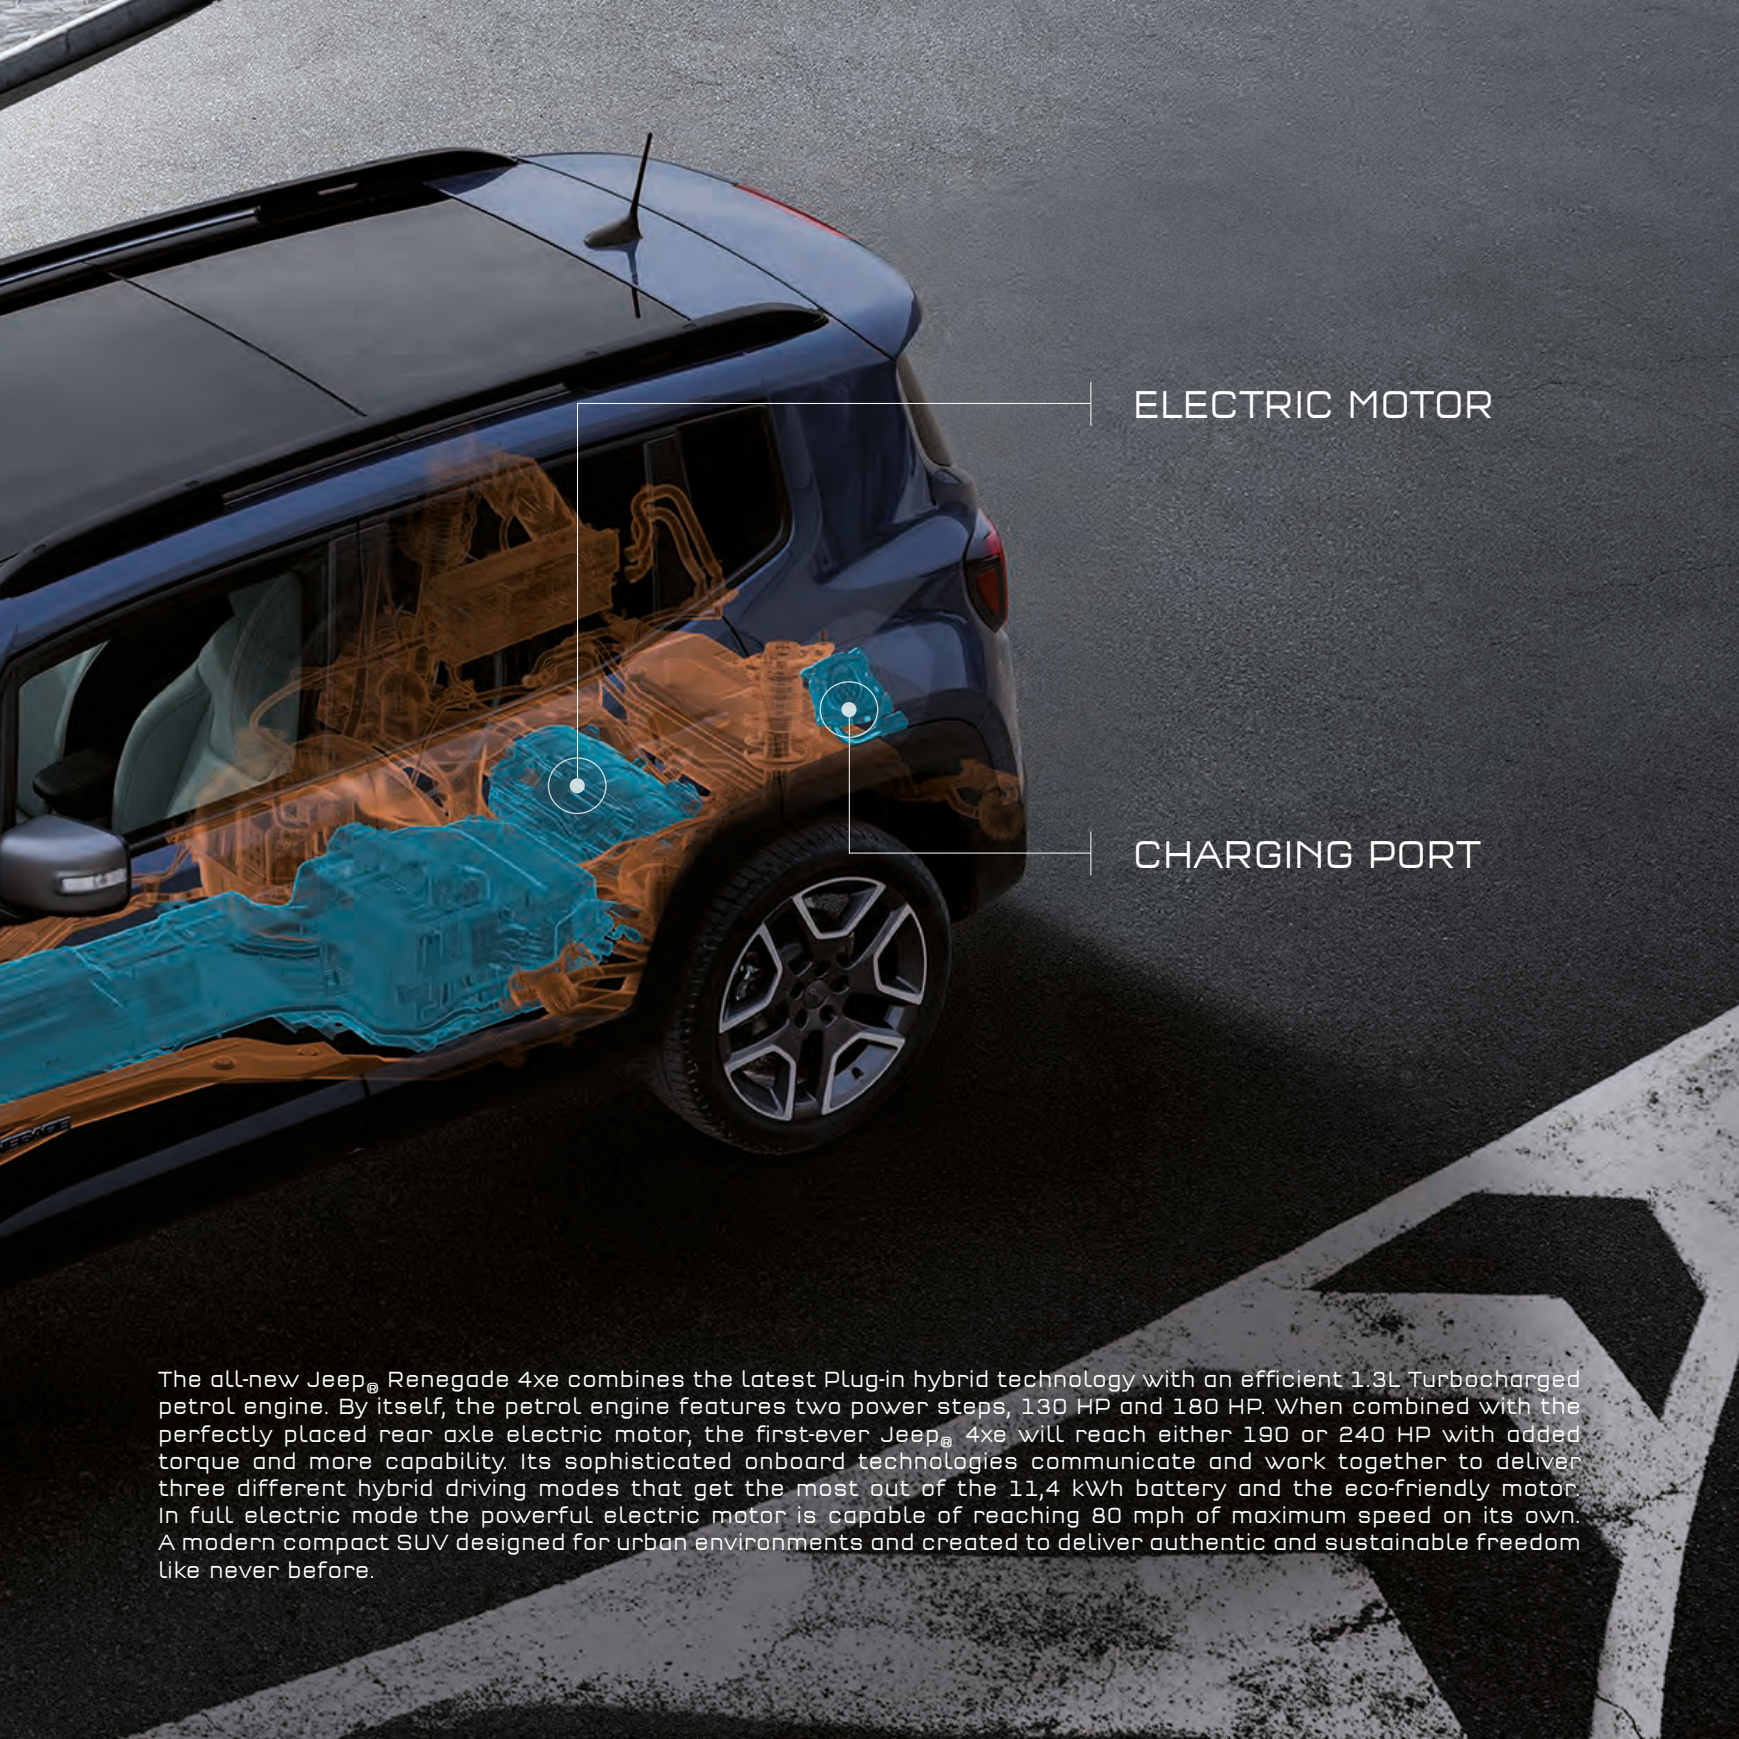

Experience the fun of driving a vehicle that offers endless possibilities. The combination of two powerful engines allows you to take on city streets in compliance with emissions regulations and on the trail while being more sustainable. Choose the dedicated Sport mode, exclusive to this model, and enjoy all the fun of two power sources working together.

EMPOWERING MORE POSSIBILITY.

BATTERY

PETROL ENGINE

ELECTRIC MOTOR

CHARGING PORT

The all-new Jeep® Renegade 4xe combines the latest Plug-in hybrid technology with an efficient 1.3L Turbocharged petrol engine. By itself, the petrol engine features two power steps, 130 HP and 180 HP. When combined with the perfectly placed rear axle electric motor, the first-ever Jeep® 4xe will reach either 190 or 240 HP with added torque and more capability. Its sophisticated onboard technologies communicate and work together to deliver three different hybrid driving modes that get the most out of the 11,4 kWh battery and the eco-friendly motor. In full electric mode the powerful electric motor is capable of reaching 80 mph of maximum speed on its own. A modern compact SUV designed for urban environments and created to deliver authentic and sustainable freedom like never before.

AUTO The default selection that is perfect for everyday driving and uses the rear electric motor when necessary to engage the 4x4 system.

MUD / SAND Uses the 4x4 system for increased torque and traction at low speeds, implementing specific chassis controls, differentials and transmission ratios to conquer the sand and mud.

SPORT The combustion engine and electric motor work together to guarantee the most sporty driving experience.

ROCK Exclusive to Trailhawk, this mode delivers skillful low-speed electric 4x4 capability due to its rear-differential locking mechanism, allowing Renegade to overpower the most challenging terrain.

CHOOSE WHEN TO CROSS PATHS.

The Selec-Terrain™ traction system allows the driver to select one of five specifically calibrated settings for various road conditions: Auto, Sport, Mud/Sand, Snow and Rock, exclusively for the Trailhawk. The legendary off-road capability of Renegade and 4x4 system features Jeep® Active Drive Low that assures performance when and how you need it most.

SNOW Adds stability and minimises oversteer for security and performance on snow and ice covered roads. Major systems are managed to guarantee a smooth ride.

NEVER LET YOUR GUARD DOWN.

With over 60 safety and security features easily understood via audio and visual warnings, including Lane Departure Warning Plus, Intelligent Speed Assist and Traffic Sign Recognition standard on all trims, the new Jeep® Renegade actively and passively keeps an eye out, senses obstacles and dangers for you and your passengers. Navigate through any difficulty you may encounter on the road and stay focused on the fun.

FORWARD COLLISION WARNING PLUS MITIGATION

Radar and video sensors detect whether the Renegade is approaching another vehicle or large obstacle in its path too rapidly and will warn or assist the driver in avoiding/mitigating the incident.

EMERGENCY BRAKING - CAMERA ONLY

Renegade 4xe is able to provide the extra-urban emergency braking function without the need of a front Radar. Thanks to Radar avoidance Emergency braking is now available also for Trailhawk.

LANE DEPARTURE WARNING PLUS

The vehicle lane position is monitored by cameras and gives visual warning if it crosses the lane boundaries unintentionally, in case of lane drift the system proactively leverages the electronic power steering to help the driver in taking a corrective action and getting back in the lane.

BLIND SPOT MONITORING AND REAR CROSS PATH DETECTION

These sentry systems constantly monitor the space between you and other vehicles. When a side or rear blind spot is encroached, you're notified via illuminated icons on side view mirrors and an audible chime.

REAR CAMERA WITH DYNAMIC LINES

The ParkView back-up camera provides perfect visibility when reversing and assists the vehicle's movement and direction thanks to the Dynamic Lines visible on the Uconnect™ screen.

AUTOMATIC PARK ASSIST - PARK SENSE

A parking space is located with video and audio guide instructions which also appear on the TFT instrument cluster. The automatic pull-out function assists in getting out of spots, the driver still needs to control gears, brake and throttle while the steering system controls the steering wheel.

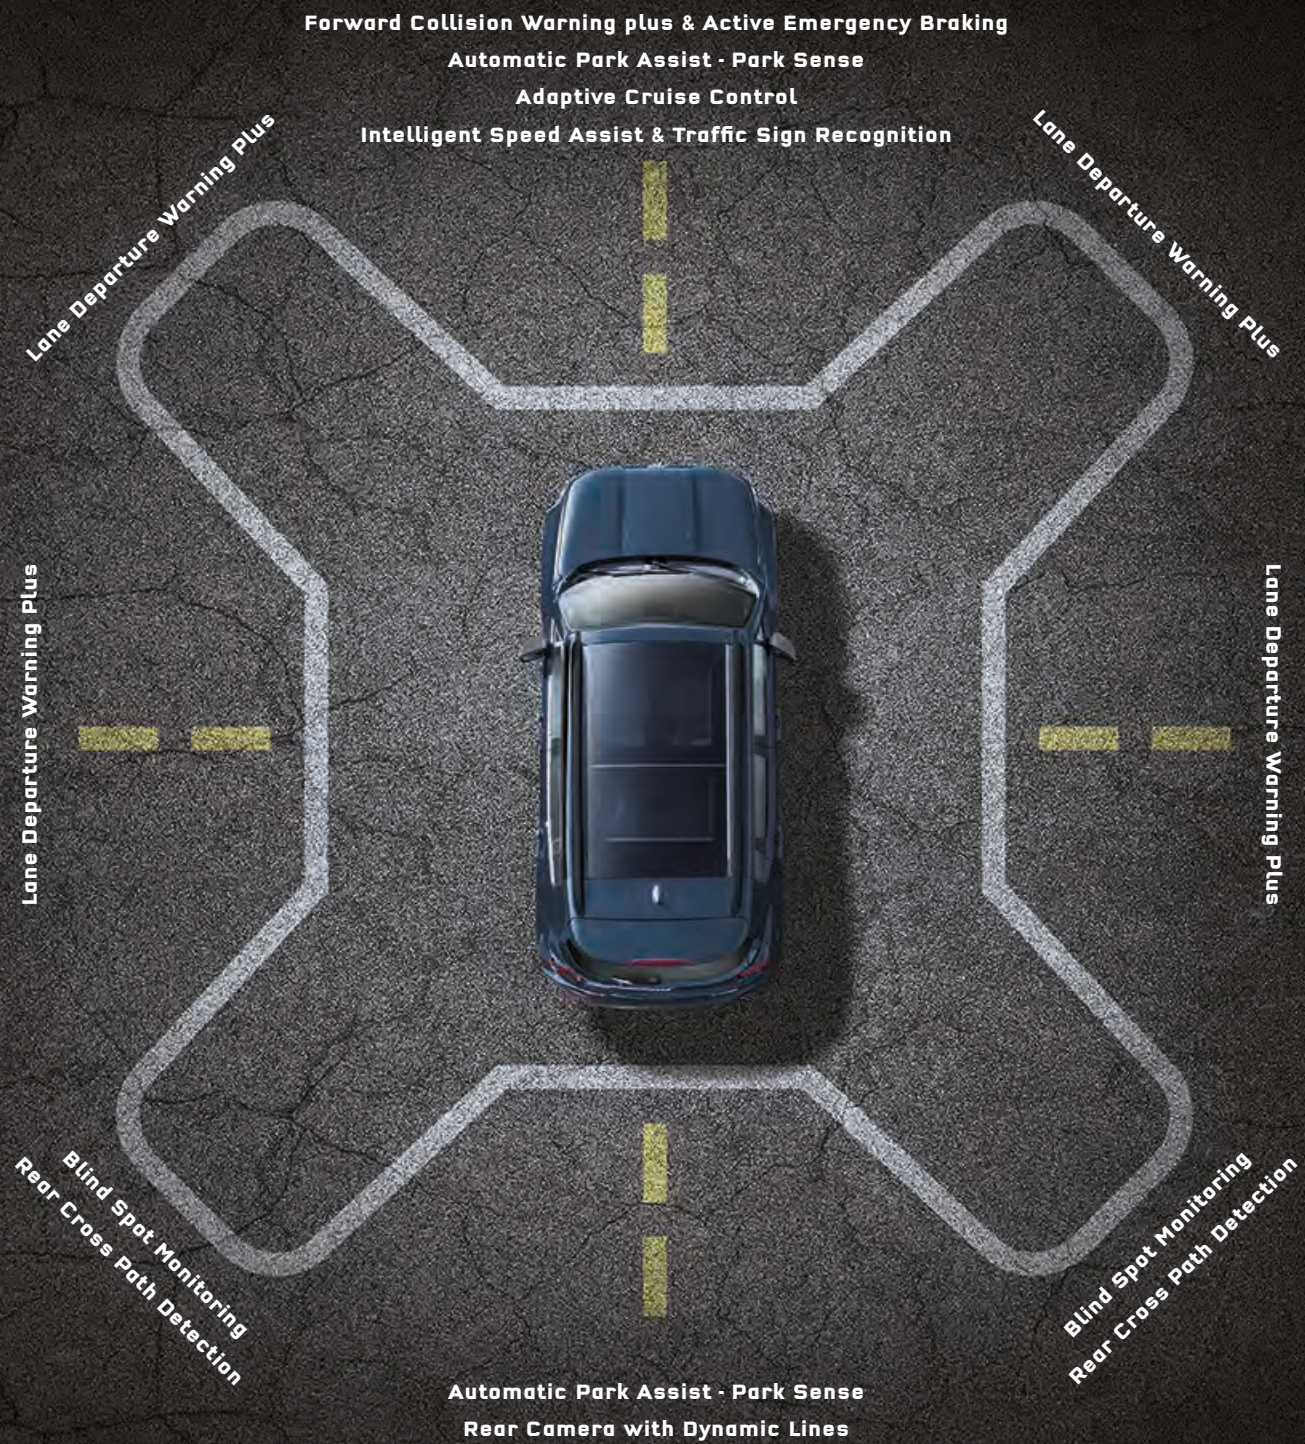

DROWSY DRIVER DETECTION

A message is sent to suggest the driver to rest when needed. Furthermore, an icon is added for the key cycle, even after removing the message on the TFT. This icon will disappear only if the driver stops, turns off the vehicle and rests.

INTELLIGENT AWARENESS

With the state-of-the-art Traffic Sign Recognition system (TSR) you are alerted about overtaking, speed limit changes and restrictions directly on the TFT display. Combined with Intelligent Speed Assist (ISA), you can accept increases or decreases to speed, and activate or deactivate the system via steering wheel controls.

MORE CONTROL TO REACH
NEW HEIGHTS.

The new Jeep® Renegade Plug-in Hybrid generates a new kind of sustainable power thanks to the dedicated electric motor. Leveraging on its legendary off-road capabilities, Jeep® has developed a sophisticated electronic four-wheel drive system to surpass the mechanical limits of traditional 4x4 systems. Able to create up to 50% more torque, outperforming traditional combustion engines while being more sustainable. Enhanced torque management means better efficiency and better crawl capability in off-road situations for unrivalled versatility. As always, the Trailhawk trim guarantees maximum freedom and is adorned with the Trail Rated badge.

RENEGADE LONGITUDE

OTR FROM **£32,600**
