# THE FIAT PANDA

The 2022 Fiat Panda blends compact style with innovation in a car that is just 3.7 metres long. And with a model suited to every need, including the new Panda (RED), it is at home in the city or on (and off) the road.

Together with the Fiat 500, the Panda is the first model from Fiat to adopt mild hybrid engine technology for cleaner, more efficient driving.

Hybrid models are powered by a three-cylinder 1.0 litre engine from Fiat's renowned FireFly family. Linked to a 12-volt Belt-integrated Starter Generator (BSG), it delivers 70hp and quiet, vibration-free

restarting of the internal combustion engine in Stop&Start mode.

The Panda Hybrid's standard-fit six-speed manual transmission helps reduce CO<sub>2</sub> emissions to as low as 112g/km depending on model, and the system recovers energy from braking and deceleration which is then used to restart the engine in Stop&Start mode and to assist the car during acceleration.

For those wanting more versatility, the Panda 4x4 range uses the powerful TwinAir 85hp engine blended with the go-anywhere appeal of four-wheel drive with rugged looks, raised ride height and suspension.

# PANDA CITY LIFE HYBRID

With the Panda City Life Hybrid, bold mini SUV looks perfectly reflect the car's character and set you apart in the city.

15" Dark Metal alloy wheels, front fog lights, a front bumper design, black roof bars and door mirrors, side skirts and side mouldings add to the rugged look. Inside, a Bluetooth® radio with smartphone cradle adds to the convenience of audio controls located on the steering wheel.

Fuel consumption and CO<sub>2</sub> figures are provided for comparative purposes only and may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Only compare fuel consumption and CO<sub>2</sub> figures with other cars tested to the same technical procedure. For further information, please visit [www.fiat.co.uk](http://www.fiat.co.uk), contact your retailer or visit the Fiat Fleet Hub at [www.fcflfleethub.co.uk](http://www.fcflfleethub.co.uk). All details correct at date of publication, January 2022.
