

Total Cost of Ownership Calculator

Comprehensive EV Fleet TCO delivered without hassle

Streamlined TCO calculations

Run and re-run calculations easily. Compare costs of electric vs ICE in a visual interface.

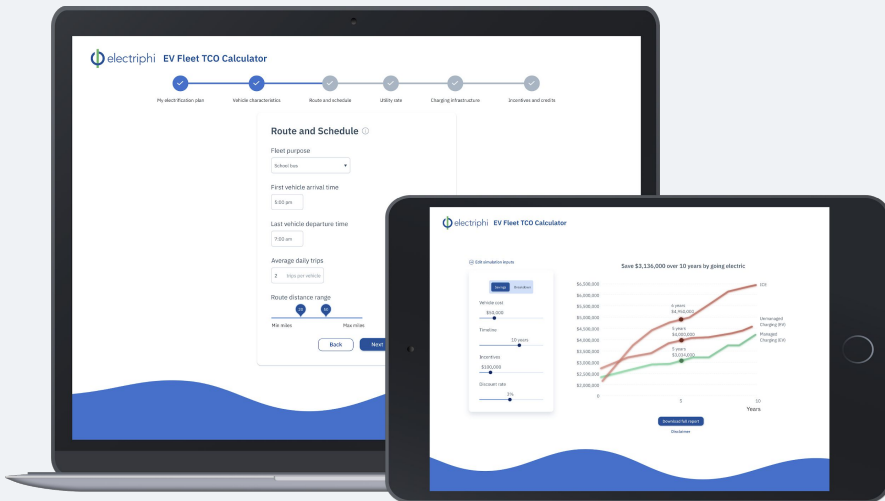

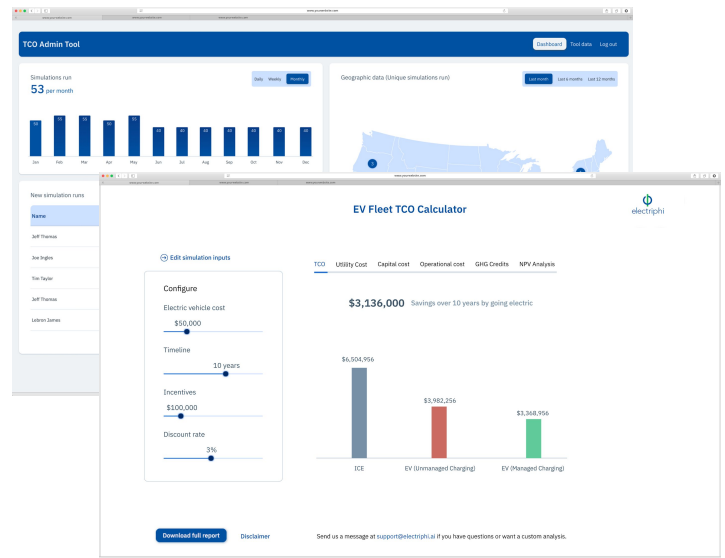

Simple app, powerful analysis

Self guided tool to walk you through inputs. Get results, not data overload.

Easily accessible reports

Breakdown of capital, operational costs, utility constraints, NPV, and more

Run “what-if” scenarios that look at multiple fleet factors

- Routes and schedules
- Vehicle types and price
- Charger type and capacity
- Incentives and grants
- Vehicle duty cycles
- Utility rates
