EVIDENCE ON WHICH MY FINDINGS AND DECISION ARE BASED

In considering your Request, I relied on the following information and documentary evidence:

- your Request;
- FOI Act;
- advice from investment operations areas within the Agency;
- Guidelines issued by the Australian Information Commissioner under s 93A of the Freedom of Information Act 1982; and

DOCUMENTS FALLING WITHIN THE SCOPE OF YOUR REQUEST

In our initial acknowledgement letter dated 29 October 2021 we noted that, in order to properly process your request and identify any relevant documents, we would interpret:

i) the Request as a request for a document setting out the value of the Future Board of Guardians’ direct holdings in the relevant companies and, where applicable, their subsidiaries as defined below as at 18 October 2021; and

ii) the reference to “any other companies” in a group in paragraph 1 and “any of its subsidiaries” in paragraphs 2 and 5 of the Request in relation to the relevant companies to mean a subsidiary as defined by greater than 50% ownership, in accordance with the definition and methodology applied by our external data service provider as at 18 October 2021 (the use of whose data services will enable us to process this Request).

We requested that, if you disagreed with our interpretation, you inform us by 5 November 2021, with specific clarification of the area of disagreement. We did not receive any response that disagreed with our interpretation.

BACKGROUND

The Future Fund Board of Guardians (“Board”) was established by the Future Fund Act 2006. The Board is responsible for deciding how to invest the assets of its various funds (“Funds”). The Future Fund is the primary fund in terms of being significantly larger than the other Funds and its object is to strengthen the financial position of the Commonwealth of Australia by making provision for unfunded Commonwealth superannuation liabilities.

The Board invests the assets of the Funds through external investment managers, as required by legislation. Operating independently of Government, the Board, supported by the Agency, manages the Funds to deliver risk-adjusted returns over the long term in accordance with the relevant Investment Mandate Directions for each of the Funds from Government.
The Board has a unique investment model and has developed a comprehensive investment program using a wide variety of strategies in order to operate effectively in increasingly competitive international financial markets. The Agency is responsible for the development of recommendations to the Board on the most appropriate investment strategy for the Funds and for the implementation of the strategy. The Board and the Agency concentrate on determining the most efficient allocation of risk across investment markets to generate desired returns.

**DECISION**

I have identified information falling within the scope of your Request. Accordingly, the Agency has extracted the relevant information from the Agency’s database into a new document and I have decided to release that document. In that document we refer to the entity names as they appear in that database.

I note that the Board did not have any direct holdings in any other entity listed in your Request as at 18 October 2021 except for those listed in the disclosed document.

**DISCLOSURE LOG**

The Agency is required by section 11C of the FOI Act to publish a disclosure log on its website detailing information released in response to a Freedom of Information access request, subject to certain exceptions. Particulars of the document produced pursuant to the Request will be published by the Agency on the disclosure log on the Future Fund website.
