

	Platform: NG01	
		Recognizes open or closed.

DOOR/ WINDOW SENSOR

You can monitor important doors and windows easily and reliably and catch the moment it opens or closes. Also kitchen cupboards, baby gates or garden sheds can be kitted with this sensor. And most importantly, you get to decide if open or closed is good or bad.

Simple to install and discreet on windows and doors

The sensor installed on a fridge.

All the sensors have long battery life and are easy to maintain. The top part is a Slide-to- open battery compartment to easily replace batteries.

- The magnetic sensor identifies if the open / close status changes.
- Sends a notification to your phone immediately. The status change is timestamped and you can view its history to check status changes for up to 7 days.
- Can be used in combination with a Camera to set the status changes as a voice message output.
