

Better solutions for the digital dilemma

## What's the digital dilemma?

Using a tech stack of multiple tools means your organizational data is spread out over multiple countries, in multiple organizations and is likely duplicated many times. You need to ask yourself - if you request it to be deleted, can it ever truly be deleted? (Think financial information)

Trusting your organizational data to a large, proprietary software company is a HUGE risk - they have the power and you can risk losing everything (https://nextcloud.com/blog/big-tech-accountability/)

## Organizations should be asking themselves:

## Where is my data stored?

• If you're using multiple tools in your tech stack, your data is likely spread across multiple companies and multiple countries - and subject to different privacy laws

#### Who can access it?

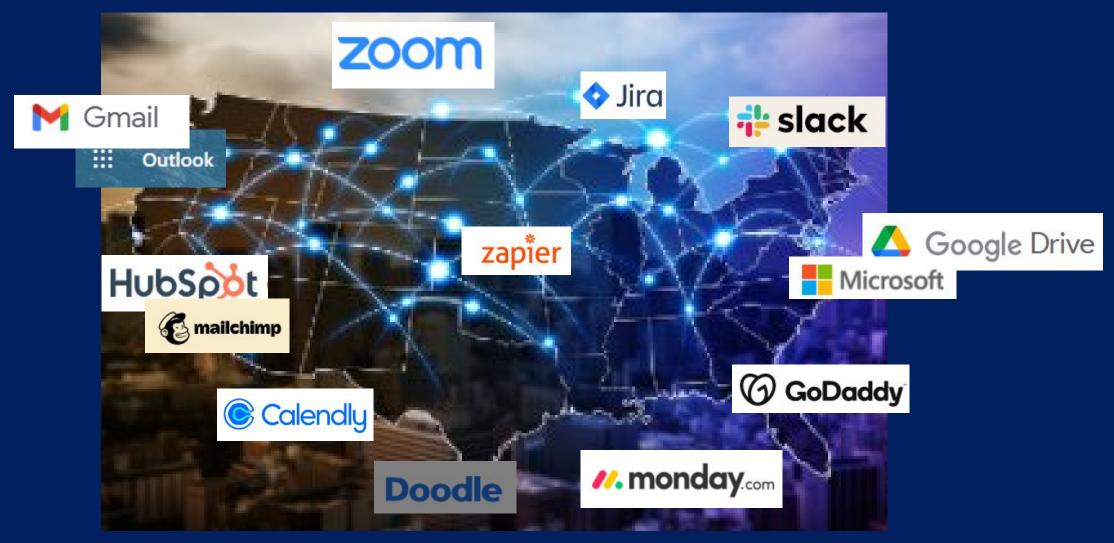

• If you haven't read the fine print of privacy agreements, it's likely that your organizational data is being used by the company you're buying the service from for their own gains

## What happens with my data?

Your data is subject to privacy laws outside of Canada if stored outside of Canada

#### A common Canadian tech stack!

MINIMUM:

#### What Canadian organizations spend / mo

\$ 767/mo

Calculated based on 7 users / month

#### The Digital Dilemma for Canadian Organizations

There is no "end-to-end" Canadian solution for simplifying organizational tech stacks

- Tech stack:
  - +\$700/mo for a small org (7 ppl) to up to \$5,000/mo for medium orgs
- If data is stored multiple times, it is likely it can never be deleted even if you request it to be (ie. org credit cards and financial data)

## The opportunity

- Massive privacy violations are now common by internet technology giants like GAFAM (Google, Apple, Facebook, Amazon and Microsoft) and corporate IT departments, which leads in increase of insurance and liability costs
- Privacy laws are changing around the world, following the new European GDPR standard
- New potential Canadian law to include the strongest fines for privacy laws among G7 - Fines of up to 5% of revenue or \$25 million, whichever is greater, for the most serious offences
- Security is a major concern for 70% of Canadian executives (The CDW 2021 Cloud Report, pg 30)

#### Replace:

Zoom, G-Suite, Office 365, HubSpot, Calendly, Slack, Mailchip, GoDaddy, DropBox ...

Services based in multiple countries, data stored in multiple places, often a payper-user model per platform

#### **Our Solution:**

**Get Hugo** 

Privacy compliant by design

**80% Carbon** emission reduction by design

#### Replace:

Zoom, G-Suite, Office 365, HubSpot, Calendly, Slack, Mailchip, GoDaddy, DropBox ...

**\$** 767

up to

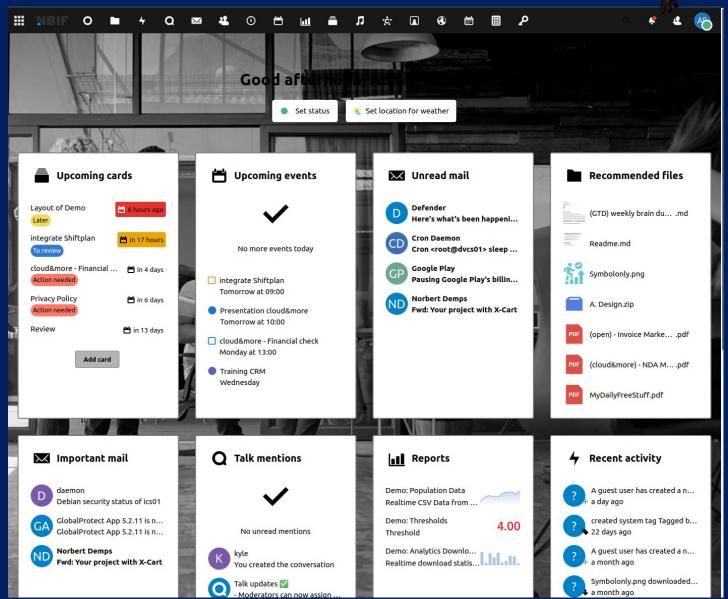

\$ 5,000

#### **Our Solution:**

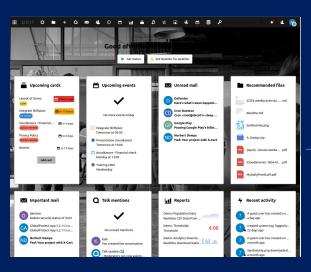

## Get Hugo one tool = one link

## We can do better with Hugo

- > Oct 2019 Dec 2020: Developed platform
- Dec 2020: Incorporated cloud&more Inc.
- > Jan May 2021: Implemented physical infrastructure in Canada

#### **\* Since June 2021:**

- ✓ over 400 active users
- ✓ 1 AWS migration completed
- ✓ Registered as supplier for Digital Boost 2.0
- ✓ Successfully implemented Digital Strategies
- √ approved for IRAP project 50,000 CAD in 2022

#### **Financial Traction**

#### **Financial Traction**

- \$ 40,000 CAD starting capital from founders
- \$ 40,000 Founders loan (interest free)
- \$ 30,000 IRAP Youth program
- \$ 35,575 Digital Skills 4 Youth (DS4Y)
- \$ 16,000 Working NB wage support
- \$ 16,000 LearnSphere
- \$50,000 IRAP Development project (starting April 1, 2022)
- \$59,589 in earned revenue (April 2021 March 2022)

**\$ 271,164** incl. \$40,000 assets in hardware

#### **SME: Market Size**

- 97.9% of business in Canada are considered small businesses - up to 99 employees.
  - Micro-enterprises (1–4 employees) = 55.3% of Canadian businesses
  - Businesses with 5–9 employees + microenterprises = 73.9%, or 3/4 Canadian businesses have 1–9 employees.

This is the target market as the sales cycle is shorter. In almost all cases there, isn't an IT-Department, which increases the pain of handling several vendors.

Saving on budget and increasing control over data are the highest motivators to switch

| Table 1: Total number of employer businesses by business size and number of SMEs per 1,000 provincial population, |

#### **Not for profit: Market Size**

In Canada, there are over 10,000 not-for-profit organizations with an average monthly digital budget of \$2,000 – 3,000 CAD. We can reduce those costs by 50%, which leads to an average MRR per organization of \$1,250 CAD.

#### **Pre-seed Raise**

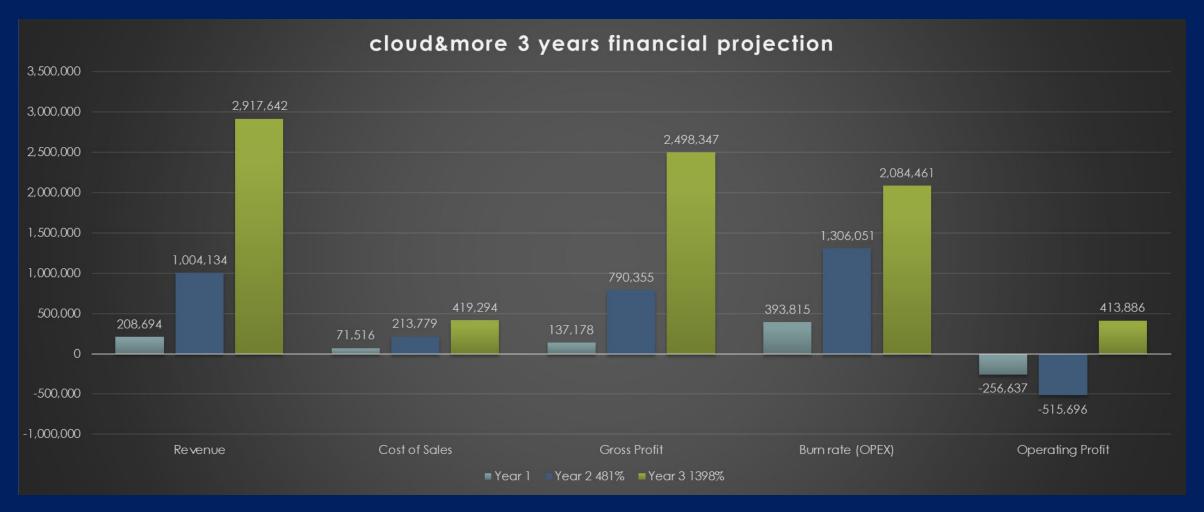

## oceans next generation Inc:

- Full *shared* CRM/BRM IP rights value of \$350,000 CAD ip&more:
- Full shared provider IP rights value of \$150,000 CAD

# Seeking matching investment of \$500,000 CAD

## **Projections assuming \$500K investment**

## https://gethugo.ca

## **Go-to-Market Strategy**

Focus on the adoption by the Canadian Start-Up ecosystem:

## It is easier to have someone start with the right foot than to migrate later

- One of the main goals of incubators funded by tax money is providing Canadian solutions
- Great solution for early-stage organizations to ensure their cybersecurity risks are mitigated, which also helps in securing good insurance - while still being able to operate using the cloud

#### Why now?

#### Most organizations use 6 - 10 different tools:

- data is spread out on those systems, increasing data inconsistency
- may not understand where data is stored across these platforms, therefore difficulty in changing platforms, and taking your data out
- productivity loss when switching across platforms
- hard to migrate or integrate disparate data
- easy to lose track of total expenses across multiple platforms
- increasing legal standards for data privacy and ownership

#### **Product Ownership**

All products are either self-developed with existing IP rights or, developed using open-source code and then integrated. All integrations follow the 'no code changes' principle.

Maximum control over your data

Our official guarantee

## Our OakBox Core Suite of Products

Competitors

CRM / BRM only real Canadian CRM

Hubspot, Zoho, Salesforce

**Private Cloud** 

AWS, Azure

Groupware

G-Drive, Office 365

Collaboration

G-Drive, Dropbox, Slack

**E-Learning** 

Cloud & File Storage

G-Drive, Dropbox

Project Management

Asana, Trello, Wrike

Video calling & Webinar

Zoom, Teams, Webex

**Online Forms** 

Google Forms, Type Forms

Online Databases

Airtable

**Email-Hosting** 

Godaddy, Google

Webhosting

Godaddy, Google

## Competition

These existing cloud providers do not offer a full solution - each client has to migrate themselves, and as a client, you pay 80% more than standard solutions available in the European marketplace.

#### **Early-adopter program**

#### March 2020 - Present:

- 15 start-ups using it via Venn Innovation as pilot clients
- 5 direct beta tester on the system.

#### Q1 2021:

- 10 additional clients (1 incubator, 4 start-ups and 5 organizations online and productive
- ensure new Hardware in Fibre Centre Moncton operational
- First paying client in February 2021

End Q2 2021: market ready

## **Extended Capabilities**

Through shareholders, we have partner agreements with:

#### **Digital Market**

#### 2021 CDW CLOUD REPORT
