Grade PreK: Fluency- Doubles

DMTI VARIED PRACTICE

DMTI Varied Practice Worksheets

This PowerPoint or PDF displays the worksheets that have varied situations (context, visual, equations, and other mathematical models) for children to work on. By completing these worksheets, children increase their foundational skills in the topic, which will help them with these standards and future mathematical topics.

1. If using a journal, have children present the worksheet and complete all the problems.
2. Or print the 'Varied Practice Worksheet Slides' for them to work on. Then, you can return to the PowerPoint or PDF to look at the keys to check their work.

Grade PreK: Fluency-Doubles

Materials Needed

Object to toss {coin, chip [DMTI math pack]}

Print Worksheet 1.1

Or...create the worksheet grid outside with sidewalk chalk

Instructions

1. Place printed worksheet on the ground, on a table or draw grid outside.
2. Gently toss object onto the grid.
3. State the number in the box where the object lands. Double the number and give the composed total.

Example: Object lands in the box with the number 1. **“1 and 1 composes 2.”**
