- Public Safety and Justice
- Fitness Centers
- Veterinarian Clinic
- Marina

INDUSTRIAL

- Agricultural Operations
- Waste management Facilities
- Water Treatment Facilities
- Food Processing Plants
- Mining Operations

BENEFITS OF FINE MIST DISINFECTING

Using any of our Atmosphere disinfectant mist applicators significantly reduces chemical consumption compared to using solutions. All of our products produce an atomized fine mist plume of 5 to 50 micron size particles that is perfect for the effective application of most disinfectants. The atomized disinfectant covers more area per oz of disinfectant quicker and easier than most other applicators

BENEFITS INCLUDE:

- Less time and labor required
- Chemical savings through reduced flow requirements at higher pressures
- Less energy consumption
- Improved cleaning results

OUR PORTABLE SERIES

HANDHELD DISINFECTANT APPLICATOR

Deliver an incredibly powerful mist that is perfect for disinfecting your home, office, car, packages, groceries ... as well as a perfect addition to all commercial disinfecting needs as a spot applicator.

- Working pressure: 90 PSI
- Reinforced seals and fittings for long lasting use
- 5 Nozzle StarCluster™ for perfect atomization (5 to 50 micron)
- EZ Action Pump - just a few pumps pressurize the entire bottle
- Up to 5x faster than traditional handheld methods
- Perfect mist for disinfecting, “not too wet” and “not to dry” - This keeps you from over wetting and wasting your valuable chemicals

BACKPACK SPRAYER

Atmosphere Backpack Sprayer delivers an incredibly powerful mist that is better than other applicators costing 5 times more. They are a perfect way to disinfect medium and large areas. With no batteries or motors to worry about, you can count on them to be ready when you need them.

- Working pressure: 150 PSI
- Reinforced Viton™ seals and fittings for long lasting use
- Patent Pending SS Lance with our 5 Nozzle StarCluster™ for perfect atomization (5 to 50 micron)
- With built in small particle dual filter
- EZ Action Pump - just a few pumps keep it at max pressure when in use
- Up to 5x faster and more effective than traditional manual sprayers
- Perfect mist for disinfecting, “not too wet” and “not to dry” - Keeps you from over wetting and wasting your valuable chemicals

ELECTRIC MISTING CART SPRAYER

A seriously nice piece of equipment. It gives the professional or anyone else needing medium and large venue disinfection a way to provide fast and effective application, while being mobile enough to go where other high pressure tanks cannot.

- Working pressure: 200 PSI
- 120/240v models available
- Patent Pending SS Lance with our 5 Nozzle StarCluster™ for perfect atomization (5 to 50 micron).
- Atmosphere's exclusive 200 PSI pump "Made in the USA"
- Large pneumatic wheels
- 20" wheelbase - easily fits through any standard doorway
- Sturdy powder coated steel frame and pull handle
- 13-gallon UV resistant tank
- Reinforced high-pressure tubing
- Saves on time and chemical use

ELECTRIC MISTING CART SPRAYER

With an impressive 800 to 1000 PSI commercial grade pump, it give you BIG performance in a small package. Available in 120v, 240v and 12v models. It is truly a one of a kind work horse for the professional needing to disinfect large and "really" large areas quickly. It is perfect for disinfecting school hallways, large warehouses, cruise ships, auditoriums and more.

- Working pressure: 800 to 1000PSI
- 120/240v amd 12v models available
- Compact design makes it easy to transport
- Patent Pending SS Lance with our 5 or 30 Nozzle StarCluster™ for perfect atomization (5 to 20 micron)
- HP pump is Made in America
- Large pneumatic wheels
- 18" wheelbase - easily fits through any standard doorway
- Powder steel enclosure and SS pull/lift handles
- 8 gallon UV resistant tank (other tank options available)
