

# Facilitation blueprint

Facilitation is deceptively complex and challenging. There are myriad factors which will influence the success of either the overall session or individual exercises. This canvas explores a range of basic domains to consider. For those new to facilitation it may prove useful to map out each exercise in detail. In future, it is more likely to be used as a quick reference tool.

Purpose			Length	
Tactile outcomes		Abstract putcomes		
What occurs before?	Open the space	The core	Close the space	What occurs after?
Totems and resources				
What they'll love it		Why they'll hate it		
What is a completely different way to fulfil the purpose?
