EDUCATION

B.S. Computer Science   June 2024
University of California, Riverside, Riverside, CA
Major accomplishments:
- *Senior level credits*

B.S. Computer Science and Engineering   2019-2021
University of California, Merced, Merced, CA
Major accomplishments:
- two year Dean's Honors list
- 3.88 GPA

Personal Projects

Drawing Project - *Full-Stack Developer*   August 2022
- Created using HTML, CSS, Javascript. Works as a drawing canvas. It includes functions like clear, undo, pencil with and color selection

Marvel Movie Picker - *Front-End Development*   May 2022
- Created using C++, developed within a team of 4. This program allowed you to look up marvel movies based on superheroes, actors, and directors, had a beginners watch list, a personality quiz that showed you what super character you related with the most, as well as a sequential list in order of how to watch all the marvel movies in. I was responsible for creating the entire user interface of it. Making sure the user could navigate through all the functions smoothly. I also assisted with data entry of the movies.

PROFESSIONAL EXPERIENCE

Hack Merced, Hackathon, Merced, CA   March 2020
Experienced real development environment with group members. Came together with never met before individuals to come up with a health app blueprint as a part of a hackathon event.
Major accomplishments:
- Developed a personal idea of a well being app for users to become self accountable
- Implemented effective communications skills in new environment
- Crafted project management agenda and coding plan for app execution

Pasadena High School, App Academy, Pasadena, CA   2015 – 2019
A four year pathway for students in the computer science field which helped develop the basic knowledge of computer science. Began developing projects in a classroom environment. Learned foundational computer science concepts such as API's, HTML, CSS, Javascript and Java. Worked with classmates on strategically approaching problems.
Major accomplishments:
- Managed to work with various languages such as html, javascript, css, c++ and java
- Worked with Unity software to work on video game development.
- Created a senior project displaying my knowledge from the past years in the academy (shorturl.at/rINY7)

Crew Member of McDonalds, Pasadena, CA   2019 - 2019
Maintained high standards of customer service during high-volume, fast-paced operations. Assisted management with inventory control and stocking. Mastered point-of-service computer system for automated order taking. Communicated clearly and positively with coworkers and management.
