

FOR IMMEDIATE RELEASE

CPS Hires Construction Financing Guru Laramie Smith for West Coast Territory

Norris, TN – July 20, 2021 – CPS is pleased to announce the hiring of Laramie Smith for Sales and Technical Support. Smith will manage the CPS West Coast territory including states California, Washington, Oregon, Alaska, and Hawaii.

Laramie has years of experience and knowledge in the construction financing industry dealing with manufacturers of heavy-duty construction equipment. Laramie has a huge passion for helping customers, striving for the greatest deal for the equipment they need. Laramie has attended various decorative concrete and concrete demolition events such as the World of Concrete, establishing relationships and providing the best customer service possible.

Smith will be responsible for sales and technical support for the CPS West Coast territory, focusing on supporting contractors, helping them grow their businesses with his extensive construction financing experience as well as his many years of working within the construction industry. “We had the opportunity to work with Laramie for quite a while in his previous position in finance. We found him to be incredibly bright and driven to provide exactly what we and our customers need daily. He was consistently reliable and relentless in his pursuit of solutions for the customer. So, naturally, when we had this position come open, it was an easy decision to make. We are excited to have him on our team and we look forward to watching him succeed in this industry”, says Dan Grady, Director of Sales and Marketing for CPS.
