Monica O. Price

March 3, 1990-March 15, 2002

This quilt was created by members of the Torch Club Leadership program called Burning Torches at the Southwest Unit of the Boys and Girls Clubs of Hartford in memory of Monica O. Price. Monica was a fellow club member at the Northwest Unit. While at the Club she enjoyed participating in club activities, especially those in the arts. Monica O. Price was only 12 years old when she passed away but left behind a wonderful legacy. She was a strong and admirable young girl who till the last few days of life insisted on attending school. It was important to the Burning Torches to keep Monica O. Price’s memory alive because she was once a member at the club and participated in similar activities and programs like them. This connection made it much more personal and they felt some responsibility to honor her memory and help her family celebrate her life.
