

HYDROXYL BLASTER

Model F203C

300 CFM

Active Coverage

Coverage up to 20,000 ft²

Features Gen-2 ActivePure®
Technology Quad Cell

Proven to eliminate over
99.9% of SARS-CoV-2 Virus on
surfaces in just 7 hours

Active Filtration

ActivePure® Filtration

Eliminates over 99% of surface
& airborne contaminants

Negative Ionization

Photocatalytic-UVC Light

1-Speed Brushless Motor

Weighs 24 lbs or 11 kg

13" L x 22" H x 13" W

Noise 68 dB(A)

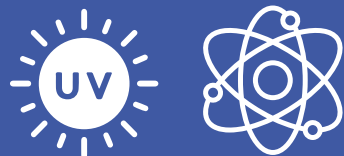

Power 172 watts

Replace Cell Every 24
months/24hrs

ActivePure® Quad Cell
\$600

BEYOND GUARDIAN AIR

Model F159E

240 CFM

1 ACH at 2,000 ft²

Coverage up to 2,000 ft²

Features Gen-1 ActivePure®
Technology Single Cell

Proven to eliminate over
99.9% of RNA & DNA viruses
in the air & on surfaces

"Better Than HEPA"
Water-Resistant Filter w/
Activated Carbon

5-Stage Filtration Process

Eliminates 99.97% of surface &
airborne contaminants as small
as 0.1 microns

Negative Ionization

Photocatalytic-UVC Light

4-Speed Brushless Motor

Weighs 34 lbs or 15.5 kg

23" L x 20" H x 11" W

Noise 32 dB(A) to 58 dB(A)

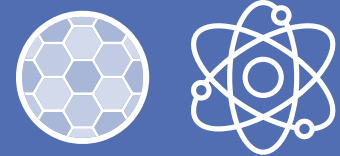

Power 23 watts to 80 watts

Replace HEPA Filter & UVC
Bulb Every 12 months/24hrs
Cell Every 24 months/24hrs

HEPA Replacement \$190
ActivePure® Cell \$260
UVC Bulb \$40

MOBILE

Model A1018D

Active Coverage

Coverage up to 500 ft²

Features Gen-2 ActivePure®
Technology

Proven to eliminate over
99.9% of viruses in the
air & on surfaces

Active Filtration

ActivePure® Filtration

Eliminates 99% of surface &
airborne contaminants

Negative Ionization

LED UVC-Light

3-Speed Compact Fan

Weighs 8 oz or .23kg

3.625" W x 6" L x 1" H

Noise 5 dB(A) to 20 dB(A)

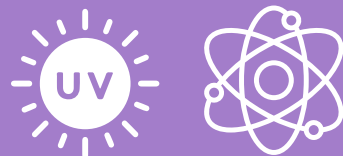

Power up-to 10.7 watts

LED UVC-Light & ActivePure®
Cell Rated For Product Life

ActivePure® & UVC Bulb
Service Kit \$25

PURE & CLEAN

Model A1040A

60 CFM

(Passively) 1 ACH at 500 ft²

Coverage 500 to 3,000 ft²

Features Gen-2 ActivePure®
Technology Dual Cell

Proven to inactivate over
99.9% of high concentrated
airborne SARS-CoV-2 virus in
just 3 minutes.

True HEPA Water-Resistant
Filter w/Activated Carbon

4-Stage Filtration Process

Eliminates 99.93% of surface &
airborne contaminants as small
as 0.3 microns

Negative Ionization

Photocatalytic-UVC Light

5-Speed Brushless Motor

Weighs 7.6 lbs or 3.45 kg

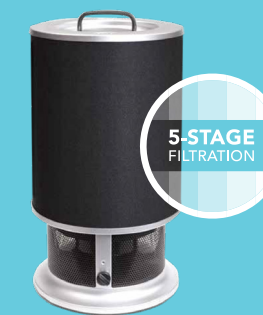

11.5" L x 9.5" H x 10" W

Noise 35 dB(A) to 55 dB(A)

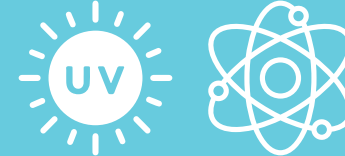

Power 36 watts to 43 watts

Replace HEPA Filter
Every 12 months/24hrs
Cell Every 24months/24hrs

HEPA Replacement \$50
ActivePure® Dual Cell \$300

GUARDIAN ANGEL

Model F179A

120 CFM

1 ACH at 1,000 ft²

Coverage up to 1,000 ft²

Passive Filtration

Proven to passively capture &
destroy over 99.9% of RNA &
DNA Viruses

True HEPA Water-Resistant
Filter w/Activated Carbon

5-Stage Filtration Process

Eliminates 99.97% of airborne
contaminants as small as
0.3 microns

Negative Ionization

LED Photocatalytic-UVC Light

4-Speed Brushless Motor

Weighs 9.2 lbs or 4.2 kg

18.7" H x 10" Diameter

Noise 35 dB(A) to 56 dB(A)

Power 16 watts to 28 watts

Replace Filter(s) Every
12 months/24hr Operation

HEPA Replacement \$110
Washable Pre-Filter \$20

LARGE ROOM AIR PURIFIER

Model A1130A

200 CFM

2 ACH at 750 ft²

Coverage up to 1,500 ft²

Passive Filtration

Proven to passively capture
& destroy over 99.97% of
airborne contaminants

True HEPA Water-Resistant
Filter w/Activated Carbon

2-Stage Filtration Process

Eliminates 99.97% of airborne
contaminants as small as
0.3 microns

No Photocatalytic-UVC Light

4-Speed Brushless Motor

Weighs 15.2 lbs or 6.9 kg

10.8" (diameter) x 24.2" H

Noise 30 dB(A) to 58 dB(A)

Power up-to 55 watts

Replace HEPA & Pre-Filter
Every 12 months/24hrs

HEPA Replacement \$58
Carbon Pre-Filter \$20

True HEPA Filtration

Sealed True HEPA Filtration
with an Activated Carbon
Stage, proven to eliminate
99.97% of contaminants

ActivePure®
TECHNOLOGY

Proprietary technology
energizes air molecules with
hydroxyls and powerful
oxidizers to seek and
destroy contaminants in-air
and on surfaces

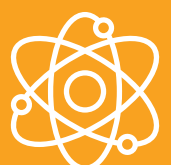

Photocatalytic-UVC
Sterilization

Safe & ozone free UVC-Light
alongside a titanium dioxide
catalyst removes airborne
viruses & bacteria

5-Stage Filtration

5-Stages of filtration enables
our systems to capture &
destroy particles as small as
0.3 to 0.1 microns in size

Negative Ionization

Negative Ionization
electrically charges particles
in the air clumping them
together at a microscopic
levels for easier filtration
